Posthuman Gaming Poppy Wilde, 2023-09-21 *Posthuman Gaming: Avatars, Gamers and Entangled Subjectivities* explores the relationship between avatar and gamer in the massively multiplayer online roleplaying game World of Warcraft to examine notions of entangled subjectivity, affects and embodiments, what it means and how it feels to be posthuman. With a focus on posthuman subjectivity, Wilde considers how we can begin to articulate ourselves when the boundary between self and other is unclear. Drawing on fieldnotes of her own gameplay experiences, the author analyses how subjectivity is formed in ways that defy a single individual notion of self and explores how different practices, feelings and societal understandings can disrupt strict binaries and emphasise our posthumanism. She interrogates if one can speak of an 'I' in the face of posthuman multiplicity before exploring different analytical themes, beginning with how acting theories might be posthumanised and articulate the relationship between avatar and gamer. She then defines posthuman empathy and explains how this is experienced in gaming before addressing the need to account for boredom, the complexity of nostalgia and ways death and loss are experienced through gaming. This volume will appeal to a broad audience and is particularly relevant to scholars and students of cultural studies, media studies, humanities and game studies.
