Graphic Organizers Simplified A Karen Bromley, Marcia Modlo, 2024-12-31 This resource is for grades 2-3 and aligns to the International Reading Association IRA and National Council of Teachers of English NCTE Standard 1.3.6 and 12.A. A graphic organizer is a visual way to represent knowledge in a pattern using labels. Organizing or arranging important aspects of a concept or topic is a critical step in the processes of reading, writing, and thinking, a step that educators used to assume students did in their heads. Now we know that helping students develop and/or use graphic organizers greatly improves reading comprehension as well as analytical thinking and writing skills. *Graphic Organizers Simplified* is a four-book supplemental series that provides teachers with ready-to-use materials to help students learn how to create and use graphic organizers. Each lesson consists of three parts: a story, article, or poem written and illustrated by nationally recognized contributors; a graphic organizer to study complete or create work sheets that include comprehension questions, guided activities for interpreting data, and opportunity to apply and write about what has been learned. Selections in each book represent a variety of fiction and nonfiction genres including poetry, journal entries, humor, biography, history, science, nature, study, sports, fantasy, and more. Each was hand-picked as appropriate for the independent and instructional reading levels for the specified grades.

Embracing Diversity Sarah Bickens, Frances Bittman, David J. Connor, 2023 *Embracing Diversity* is about the craft of teaching with a particular focus on celebrating the myriad of human identities through classic, contemporary, and unconventional texts. Experienced secondary English language arts educators narrate their own experiences and provide insights through reflecting upon aspects of everyday pedagogy. Featuring a rich array of texts designed to be both familiar and unfamiliar to the reader, the authors explore complex issues raised by a diverse body of writers while simultaneously sharing methods that engage students to think critically. Topics include how students' learning is influenced by their identities, the importance of building relationships, creating a balanced curriculum, developing cultural responsiveness and cultural sustainability, confronting discomfort zones, adapting to different educational contexts, and considering how the COVID-19 pandemic changed teaching. This teacher-friendly resource illustrates how reflective practitioners are assisted in their goal of teaching literacy skills while encompassing issues of social justice. **Book Features:** Multiple examples of classroom activities for the secondary ELA classroom. User-friendly text boxes highlighting points of interest. Questions at the end of each chapter to help readers reflect on their own practices. Detailed appendices featuring recommended books and practical resources.
