Firearms of the Texas Rangers Doug Dukes,2020-08-14 From their founding in the 1820s up to the modern age the Texas Rangers have shown the ability to adapt and survive Part of that survival depended on their use of firearms The evolving technology of these weapons often determined the effectiveness of these early day Rangers John Coffee Jack Hays and Samuel Walker would leave their mark on the Rangers by incorporating new technology which allowed them to alter tactics when confronting their adversaries The Frontier Battalion was created at about the same time as the Colt Peacemaker and the Winchester 73 these were the guns that won the West Firearms of the Texas Rangers with more than 180 photographs tells the history of the Texas Rangers primarily through the use of their firearms Author Doug Dukes narrates famous episodes in Ranger history including Jack Hays and the Paterson the Walker Colt the McCulloch Colt Revolver smuggled through the Union blockade during the Civil War and the Frontier Battalion and their use of the Colt Peacemaker and Winchester and Sharps carbines Readers will delight in learning of Frank Hamer s marksmanship with his Colt Single Action Army and his Remington along with Captain J W McCormick and his two 45 Colt pistols complete with photos Whether it was a Ranger in 1844 with his Paterson on patrol for Indians north of San Antonio or a Ranger in 2016 with his LaRue 7 62 rifle working the Rio Grande looking for smugglers and terrorists the technology may have changed but the gritty job of the Rangers has not **The Hand Gun Story** John Walter,2008-06-30 A firearms expert traces the history of the one hand gun from its 14th century origins surveying changing technology techniques and design Midwest Book Review Ideally suited for both attack and self defense handguns have gotten smaller and deadlier But the earliest pistols had a tendency to misfire This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol World War I provided the handgun with a proving ground At the end of the hostilities with so

much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires During World War II the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential The emergence of the submachine gun in 1945 reduced the status of the handgun but only temporarily The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele **Colt Firearms, 1836-1954** James E.
