indexed **The Encyclopedia of Best Films** Jay Robert Nash, 2019-10-23 This all inclusive A Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5 000 three to five star entries: three stars good, four stars excellent, five stars masterpiece. And yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc. as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Canadian Film and Video Loren R. Lerner, 1997-01-01 This extensive bibliography and reference guide is an invaluable resource for researchers, practitioners, students, and anyone with an interest in Canadian film and video. With over 24 500 entries of which 10 500 are annotated, it opens up the literature devoted to Canadian film and video at last, making it readily accessible to scholars and researchers. Drawing on both English and French sources, it identifies books, catalogues, government reports, theses, and periodical and newspaper articles from Canadian and non-Canadian publications from the first decade of the twentieth century to 1989. The work is bilingual; descriptive annotations are presented in the language(s) of the original publication. **Canadian Film and Video: Film et vidéo canadiens** provides an in-depth guide to the work of over 4000 individuals working in film and video and 5000 films and videos. The entries in Volume I cover topics such as film types, the role of government laws and legislation, censorship, festivals and awards, production and distribution companies, education, cinema buildings, women and film and video art. A major section covers filmmakers, video artists, cinematographers, actors, producers, and various other film people. Volume II presents an author index, a film and video title index, and a name and subject index. In the tradition of the highly acclaimed publication **Art and Architecture in Canada**, these volumes fill a long-standing need for a comprehensive reference tool for Canadian film and video. This bibliography guides and supports the work of film historians and practitioners, media librarians and visual curators, students and researchers, and members of the general public with an interest in film and video.
