Diuturnity's Dawn Alan Dean Foster,2002-03-26 In nearly two dozen novels about the Humanx Commonwealth Alan Dean Foster has fascinated readers with his brilliantly imagined interstellar

realm where humans, thranx, AAnn and other species strive to work together to put the common good above selfish ends. But renewed efforts at cooperation prove that familiarity breeds contempt. *Diuturnity's Dawn* is the third thrilling novel in *The Founding of the Commonwealth*, a spectacular space adventure that traces the perilous early years of this remarkable universe. From the beginning while sharing the Orion Arm of the galaxy, contact between humankind and the thranx has been tenuous at best. Yet nearly a century after first contact, the likelihood of closer human-thranx relations is as far away as ever. Humans still find these insectlike beings physically repulsive, a distaste the thranx return in kind. At times the cordial veneer barely conceals the suspicion and distrust boiling just below the surface. Yet idealists on both sides refuse to surrender their dreams of achieving a thranx-human alliance. Among the most dedicated are a minor diplomat named Fanielle Anjou and her thranx counterpart. Others intend to make sure such a liaison never comes to pass by any means necessary. For these xenophobes, the upcoming Humanx Inter-Cultural Fair, the first wholly cross-species event, is a hideous confirmation of their worst fears. Zealots on both sides vow it will be the last of its kind, no matter how many must die. In the coming conflagration, Fanielle holds the key to triumph, but only if she can outwit those desperate to silence her forever. Meanwhile, on a faraway planet, the duplicitous AAnn watch intently as archaeologists labor to discover what happened to an advanced human race that perished thousands of years ago. For the answers contain grave consequences for human, thranx, and AAnn alike.

At the headquarters of NEST, tech sergeant Epps and captain Lennox both guard and assist cyberneticist Kaminari Ishihara and the brooding Russian AI genius Petr Andronov as they explore the differences between organics and bots. All around them, alliances fray, distrust grows, suspicions mount, and traitors come out of the shadows. Meanwhile, Optimus Prime, the powerful leader of the Autobots who is also part of NEST, plays defense as battles flare up from Australia to Zambia. But escalating

Decepticon attacks will culminate in a final confrontation from which no one man or machine will emerge unscathed The Tar-aiym Krang Alan Dean Foster,2002-03-05 With two great golden clouds suspended around it Moth was the only planet that appeared to have wings It was a beautiful planet and a trap for the unwary Here was a wide open world for any venture a man might scheme The planet attracted unwary travelers hardened space sailors and merchant buccaneers a teeming constantly shifting horde that provided a comfortable income for certain quick witted fellows like Flinx and his pet mini dragon Pip With his odd talents the pickings were easy enough so that Flinx did not have to be dishonest most of the time In fact it hardly seemed dishonest at all to steal a starmap from a dead body that didn't really need it anymore But Flinx forgot one crucial point He should have wondered why the body was dead in the first place Mid-Flinx Alan Dean Foster,2002-03-05 Pip and Flinx meet Midworld Where Flinx and his flying minidrag Pip went trouble always followed that law had governed their lives through years of unsought danger and galactic intrigue Now an evil rich man was out to kidnap the minidrag for his personal zoo and Flinx and Pip were on the run again this time into uncharted space on a random course they hoped would foil their pursuers They found more than they bargained for when they landed on Midworld a verdant planet covered by an immense jungle hosting an incredible variety of plant and animal life all of it unknown and all of it deadly And now they were in real trouble Their hiding place was in danger of discovery and their only hope lay with this bizarre and untamed planet if it didn't kill them first *The End of the Matter* Alan Dean Foster,2002-03-26 Accompanied by his faithful minidrag Pip and a most troublesome alien called Abalamahalamatandra Ab for short Flinx set out for Alaspin the ruggedly primitive homeworld of his flying snake There he hoped to find the giant man with the gold earring who somehow held the key to Flinx's mysterious past and to the strange powers he possessed Chasing down his heritage was trouble enough but Flinx didn't know what real trouble was until he realized that the Qwarm a deadly assassin squad were three steps behind him with a contract to kill But the minidrag's homeworld did not offer safety and Flinx had a terrible time just staying alive a matter complicated to no mean degree by a collapsar already set on an unstoppable death course across the galaxy
