The Stages of Higher Knowledge Rudolf Steiner, 2009-08 What does it mean to be human Human development unfolds in a twofold way On the one hand there is an ever more profound incarnation or inhabitation of the physical body On the other hand there is the increasing discrimination of the individual objects of the world Difficulties and obstacles along this path can lead to so called disabilities K nig s approach to curative education allows us to see these disabilities as meaningful ways of coping with or resolving the various problems that arise in living in a physical body From this point of view disabilities are exaggerated forms of ways we all use to cope with life The point is not only to see the deviations but to see them against the mighty backdrop of a comprehensive child anthropology Being Human presents the outline of just such a comprehensive anthropology Being Human is of value not only to those working in special education but to anyone interested in the dynamics of incarnation and normal development

An Esoteric Cosmology Rudolf Steiner, 2008 A congress of the Federation of European Sections of the Theosophical Society was held in Paris in May 1906 Rudolf Steiner attended with a number of students and presented a series of lectures to a small circle of friends mostly society members Edouard Schur was present and made succinct notes of those talks the result of which is *An Esoteric Cosmology* Evolution Christ and Modern Spirituality In its foreword Schur describes his initial impressions of Rudolf Steiner and the force of his vision These priceless lectures mark a significant phase of Rudolf Steiner s thought that of the spontaneous burst of his genius and its first crystallization Indeed his notes record perhaps the first general outline and summary of what would become Anthroposophy or spiritual science At the time of these lectures most members viewed Theosophy as a kind of Europeanized Indian philosophy Thus one purpose of these lectures was to outline Steiner s Christ centered spiritual science in contrast to the more Eastern orientation of Theosophy He carefully connected the essence of spiritual science to the role of the Christ in human evolution as well as to the Rosicrucian and Christian mystery traditions the primary carriers of the esoteric Christian stream To accomplish this Steiner presented the roots of Christianity in the ancient mysteries and in the evolution of the whole universe itself The miracle of these lectures perhaps is that Steiner was able to condense such a grand cosmology into these eighteen lectures and that Edouard Schur was able to capture their essence in the relatively brief notes that constitute this book A few years later the substance of these lectures were expanded and presented in Rudolf Steiner s *Outline of Esoteric Science* These lecture notes will prove invaluable for all those who wish to better understand that book as well as
