meaning of the NPPF in a comprehensive and systematic way by reference to case law and appeal decisions The Handbook provides practical guidance on whether a policy paragraph has changed in substance or just its numbering Users will be able to assess whether previous authorities are still relevant Expertly co edited by Gregory Jones KC and Simon Neate MRTPI the book provides a unique commentary from a blended team of experienced specialist planning barristers from the leading planning chambers of Francis Taylor Building and planning transport and economics consultants from the international professional services firm WSP This definitive single volume guide to the NPPF will be essential reading for legal practitioners and professionals working in the field of planning

The Fracking Debate Jonathan M. Fisk, 2017-08-07 The disputes around fracking and oil and gas policy follow a long tradition of complicated intergovernmental relationships Proponents argue that fracking supports new and well paying jobs revitalizes state and local economies and that it can help replace reliance on other fossil fuels Skeptics and opponents contend that oil and gas production via fracking contaminates air and water resources causes earthquakes and can ruin the character of many communities Examining the intergovernmental politics of the first oil and natural gas boom of the 21st century *The Fracking Debate* Second edition offers a holistic understanding of the politics that characterize oil and natural gas operations including why local governments are challenging their state s preemptive authority in order to initiate a larger conversation about improving intergovernmental relationships Author Jonathan Fisk presents a novel argument about the ways in which local state regional and national approaches to governance of shale gas development can work together to reduce conflict and forward the interests of the communities exposed to development asking important questions such as What state structures govern state local relations What state institutions impact and shape oil and gas production What is the policymaking context in the state What are the costs and benefits of hydraulic fracturing at the national state and local levels How are risks and rewards distributed within states What local policies have challenged the state and why would local communities challenge the state The result is a book that demonstrates that when stakeholders acknowledge their interdependencies and one another s expertise they create design and implement more responsive strategic and targeted public policies *The Fracking Debate* Second edition will be required reading for courses on oil and gas policy in the United States environmental politics and domestic energy politics as well as a vital reference for practitioners and policymakers working in these fields

Judicial Review Handbook The Hon Sir Michael Fordham, 2021-01-07 Bloomsbury s eBooks are protected using Digital Rights Management DRM As such it is not possible to copy or print this eBook nor will it be accessible with an Adobe ID other than your own an institution for those who practise public law it has the authority that comes from being compiled by an author of singular distinction Lord Woolf from the Foreword to the Fifth Edition The new edition of this Handbook remains an indispensable source of reference and a guide to the case law in judicial review Established as an essential part of the library of any practitioner engaged in public law cases it offers unrivalled coverage of administrative law including but not confined to the work of the Administrative

Court and its procedures Once again completely revised and up dated the seventh edition approximates to a restatement of the law of judicial review organised around 63 legal principles each supported by a comprehensive presentation of the sources and an unequalled selection of reported case quotations It also includes essential procedural rules forms and guidance issued by the Administrative Court As in the previous edition both the Civil Procedure Rules and Human Rights Act 1998 feature prominently as major influences on the shaping of the case law Attention is also given to impact of the Supreme Court Here Michael Fordham casts an experienced eye over the Court s work in the area of judicial review and assesses the signs from a Court that will be one of the key influences in the development of judicial review in the modern era The author a leading member of the English public law bar and now has been involved in many of the leading judicial review cases in recent years and is the founding editor of the Judicial Review journal

Chinese Naval Shipbuilding Andrew S.

Erickson,2017-02-15 China s shipbuilding industry has grown more rapidly than any other in modern history Commercial shipbuilding output jumped thirteen fold from 2002 12 ensuring that Beijing has largely reached its goal of becoming the world s leading shipbuilder Yet progress is uneven with military shipbuilding leading overall but with significant weakness in propulsion and electronics for military and civilian applications It has never been more important to assess what ships China can supply its navy and other maritime forces with today and in the future Chinese Naval Shipbuilding answers three pressing questions What are China s prospects for success in key areas of naval shipbuilding What are the likely results for China s navy What are the implications for the U S Navy To address these critical issues this volume assembles some of the world s leading experts and linguistic analysts often pairing them in research teams These sailors scholars industry professionals and government specialists have commanded ships at sea led shipbuilding programs ashore toured Chinese vessels and production facilities invested in Chinese shipyards and analyzed and presented important data to top level decision makers in times of crisis In synthesizing their collective insights this book fills a key gap in our understanding of China its shipbuilding industry its navy and what it all means

Development on Loan Nicholas Loubere,2025-10-01

Key to China s plans to promote rural development is the de marginalisation of the countryside through the incorporation of rural areas into the urban based market oriented financial system For this reason Chinese development planners have turned to microcredit i e the provision of small scale loans to financially excluded rural households as a means of increasing financial consciousness and facilitating rural de marginalisation Drawing on in depth fieldwork in rural China this book examines the formulation implementation and outcomes of government run microcredit programmes in China illuminating the diverse roles that microcredit plays in local processes of socioeconomic development and the livelihoods of local actors It details how microcredit facilitates de marginalisation for some while simultaneously exacerbating the marginalisation of others and exposes the ways in which microcredit and other top down development strategies reflect and reinforce the contradictions and paradoxes implicit in rural China s contemporary development landscape

Regulating Local Government Financing

Vehicles and Public-Private Partnerships in China Hui Jin, Isabel Rial, 2016-09-21 In this paper we argue that there is much room for China to strengthen its regulatory framework for public private partnerships PPPs We show that infrastructure projects carried out through local government financing vehicles LGFVs were largely unregulated PPPs and significant fiscal risks have already manifested themselves While PPPs can potentially provide efficiency gains they can also be used by governments to circumvent budgetary borrowing constraints Therefore effective PPP regulation is key to delivering PPPs benefits while containing their potential fiscal risks The authorities have taken concrete steps in order to establish a sound regulatory framework and foster a new generation of PPPs However to make the framework effective we highlight a few issues to be resolved Based on international best practice we propose a four pillar regulatory framework for China which could be implemented gradually in three stages *Ethics, Efficiency and Macroeconomics in China* Jonathan

Leightner, 2017-04-21 This book tells the story of how China's leaders from Mao to Xi have sacrificed ethics to promote either macroeconomic performance or microeconomic efficiency This story includes Mao's collectivization of land the Great Leap Forward the Great Cultural Revolution Deng's opening China to international trade Tiananmen Square the freeing of prices food and medicine scandals the 2015 surge and collapse of the Chinese stock market the falling of China's foreign reserves and so on In 2008 China's leaders correctly identified the best strategy as a consumption driven growth strategy because the current world is suffering from a glut of savings However for that strategy to work the Chinese need to be able to trust China's economy and leaders In the absence of trust people will make decisions based on extremely short time frames which will hurt China's long run potential and continue to generate a series of speculative bubbles In the absence of trust wealthy Chinese will continue to move their assets abroad putting tremendous downward pressure on the Chinese yuan The Chinese will develop a long run perspective and invest in China only when they can trust China's future In today's world trust is necessary Trust is built on ethics

Managing Local Government Kimberly L. Nelson, Carl W. Stenberg, 2025-06-24 Managing Local Government An Essential Guide for Municipal and County Managers 2nd Edition covers the basics of the local government management curriculum with a regional approach that examines the local governmental structural forms administrative functions and financial considerations inherent to the metropolitan environment To prepare the next generation of local leaders authors Kimberly Nelson and Carl Stenberg incorporate real life scenarios case studies and class discussion questions to help students understand contemporary issues

Macroeconomic Policy and Steady Growth in China Zhang Xiaojing, 2021-09-19 Since the appearance of macroeconomics in the 1940s economists have created many theoretical frameworks to explain the origin and mechanism of economic fluctuations However few of these have managed to gain explanatory power over reality nor can they solve real life problems This book proposes a new macroeconomic paradigm that makes breakthroughs in these areas Based on a balance sheet approach and macro financial linkage analysis this book carries out a comprehensive analysis of the trends within China's macroeconomy in 2020 The author argues that the COVID

19 pandemic created a great degree of uncertainty therefore supply side structural reform and improved total factor productivity have been promoted to ensure a policy of steady growth Given the declining economic growth rate in percentage terms China has needed to adapt to a moderate increase in the leverage ratio while applying more effective fiscal policies to achieve a dynamic balance between stable growth and risk prevention Scholars and students of economics and finance especially Chinese economics will find this book a useful reference

Public Service Management and Employment Relations in Europe Stephen Bach, Lorenzo Bordogna, 2016-07-07 Has there been a transformation of public service employment relations in Europe since the crisis Public Service Management and Employment Relations in Europe examines public service employment relations after the economic crisis including analysis of more than thirty years of public service and workforce reform and addresses the interplay between an emerging post crisis public service sector and the consequences for the state employers and trade unions in core public services Written by leading national experts this book places the economic crisis in a longer timeframe and examines how far trends in public sector employment relations were reinforced or reversed by the crisis It provides an up to date analysis of the restructuring of public service employment relations in 12 major European countries including analysis of little studied central and Eastern European countries This book will be vital reading for researchers academics and PhD Students in the fields of Public Management Public Administration Employment Relations and Human Resource Management

Law Yuhong Zhao,2021-06-17 Analysis of Chinese environmental law with a focus on the development in statutory regulation institution building and judicial innovation **The UK Regional-National Economic Problem** Philip McCann,2016-03-10

In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain's regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK's economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government **Pursuing Sustainable Development**
