Education System Design Brian Hudson, Marilyn Leask, Sarah Younie, 2020-11-26 This book highlights decisions governments have to make about their public education systems the options they have before them and the consequences of their decisions As well as covering issues such as values curriculum teacher training structures and so on the book addresses education planning for epidemics pandemics and disasters Education systems provide the foundations for the future wellbeing of every society yet existing systems are a point of global concern Education System Design is a response to debates in developing and developed countries about the characteristics of a high quality national education service It questions what makes a successful system of education With chapters that draw on experience in education systems around the world each one considers an element of a national education service and its role in providing a coherent and connected set of structures to ensure good education for all members of society Key topics include Existing education systems and what a future system might look like Inclusion and social justice Leadership and teacher education Policy options and the consequences of policy changes This book suggests an education system be viewed as an ecosystem with interdependencies between many different components needing to be considered when change is contemplated It is a vital book for any stakeholders in educational systems including students teachers and senior leaders It would be particularly useful to policy makers and those implementing policy changes

Applied Sociology for Social Work Ewan Ingleby, 2017-11-27 Sociology can help students understand why and how so many of the problems their service users face occur in the first place helping them choose effective ways to communicate and make informed decisions on how their needs can be fully met This book offers students a framework to explore how their professional responsibility to understanding sociology can be realised in every aspect of their work with a diverse range of service user groups including children and families adults older people people with learning disabilities and people suffering from mental distress The book takes students step by step through the theoretical grounding what sociology is how it is relevant to everyday social work practice and what are the key aspects of sociological theory that need to be understood

Social Justice in Practice in Education Janice Wearmouth, Karen Lindley, Uvanney Maylor, James Shea, 2024-04-12 Exploring Social Justice in Practice in Education focuses on the tensions and challenges to issues of fairness and social and cognitive justice in the sphere of education The terms fairness and social and cognitive justice are often used to justify particular policies and practices in the sphere of education In providing a clear definition of what they should mean in practice this book includes a discussion of and in some cases potential resolutions to tensions and challenges in relation to notions of fairness and social and cognitive justice that are implicit within individuals

lived experiences across all phases of education Through their personal narratives the authors illustrate how such tensions and challenges have played out in their own lives They go on to explore differences in interpretations and consequent challenges in putting concepts of social justice into practice Chapters consider important implications across different sectors and phases of education including special educational needs leadership and higher education This insightful volume will enable educators at all levels to hear from students family members significant adults carers and professionals their experiences of fairness and social justice in education and about what could be done in the future to redress injustices It will appeal to readers at all levels in education including those studying for or teaching Education related degrees at bachelors masters and doctoral levels The Irish Reports ,1996 Included Or Excluded? Ruth Cigman,2007 In a pamphlet published in 2005 Mary Warnock expressed concerns about some of the concepts that she had helped to introduce in the field of special education almost three decades earlier She argued that the role of special schools was unclear and the pursuit of inclusion had become too ideological This highly topical book suggests that distinctions should be made between kinds of special needs and the possibility addressed that some SEN children might be happier and more effective as learners within non mainstream settings Her call for a government review to investigate these problems raised its media profile fuelling the debate This book pulls together contributions from all sides of the argument An essential read for anyone involved in special education as well as the philosophy and ethics of education this book truly breaks new ground **The Handicapped Child** Agatha H. Bowley,Leslie Gardner,1980 **The International Encyclopedia of Education** Torsten Husén,T. Neville Postlethwaite,1994 Australian Journal of Remedial Education ,1986 **The British Library General Catalogue of Printed Books 1976 to 1982** British Library,1983 *Parliamentary Debates (Hansard)*. Victoria. Parliament,1981
