Water Wars Vandana Shiva, 2016-07-26 Acclaimed author and award winning scientist and activist Vandana Shiva lucidly details the severity of the global water shortage calling the water crisis the most pervasive most severe and most invisible dimension of the ecological devastation of the earth She sheds light on the activists who are fighting corporate maneuvers to convert the life sustaining resource of water into more gold for the elites and uses her knowledge of science and society to outline the emergence of corporate culture and the historical erosion of communal water rights Using the international water trade and industrial activities such as damming mining and aquafarming as her lens Shiva exposes the destruction of the earth and the disenfranchisement of the world's poor as they are stripped of rights to a precious common good Revealing how many of the most important conflicts of our time most often camouflaged as ethnic wars or religious wars are in fact conflicts over scarce but vital natural resources she calls for a movement to preserve water access for all and offers a blueprint for global resistance based on examples of successful campaigns Featuring a new introduction by the author this edition of *Water Wars* celebrates the spiritual and traditional role water has played in communities throughout history and warns that water privatization threatens cultures and livelihoods worldwide *Water Wars* Vandana Shiva,

international security theory and practice from a gendered perspective Gender issues have an important place in the international security landscape but have been neglected both in the theory and practice of international security The passage and implementation of UN Security Council Resolution 1325 on Security Council operations the integration of gender concerns into peacekeeping the management of refugees post conflict disarmament and reintegration and protection for non combatants in times of war shows the increasing importance of gender sensitivity for actors on all fronts in global security This book aims to improve the quality and quantity of conversations between feminist security studies and security studies more generally in order to demonstrate the importance of gender analysis to the study of international security and to expand the feminist research program in Security Studies The chapters included in this book not only challenge the assumed irrelevance of gender they argue that gender is not a subsection of security studies to be compartmentalized or briefly considered as a side issue Rather the contributors argue that gender is conceptually empirically and normatively essential to studying international security They do so by critiquing and reconstructing key concepts of and theories in international security by looking for the increasingly complex roles women play as security actors and by looking at various contemporary security issues through gendered lenses Together these chapters make the case that accurate rigorous and ethical scholarship of international security cannot be produced without taking account of women s presence in or the gendering of world politics This book will be of interest to all students of critical security studies gender studies and International Relations in general Laura Sjoborg is Assistant Professor of Political Science at the University of Florida She has a Phd in International Relations and Gender Studies from the University of Southern California and is the author of *Gender Justice and the Wars in Iraq* 2006 and with Caron Gentry *Mothers Monsters Whores Women s Violence in Global Politics* 2007
