displacement and placement and offers fresh interpretations of migration and dislocation in today's rapidly changing world. The contributors critically examine a variety of displacement processes and experiences in the context of war, tourism, neoliberal policies of development and the impact of various agro-forestry policies. They focus on a range of countries enabling a thorough comparative analysis in terms of scope and range of examples and methods of analysis. This book makes an original contribution to the growing body of literature on displacement and will appeal to a wide readership including advanced undergraduates and graduate students and professors in disciplines such as human geography, development studies, sociology and anthropology, regional studies and comparative impact assessment. *Martindale-Hubbell Buyer's Guide*, 1997 **The Back Door Guide to Short Term Job Adventures** Michael Landes, 1997.
