My experience attending the 5 meetings in February – March was only partly that of an experienced design researcher who had worked more than 10 years across both the design and research domains. I remember that I felt like a novice (I remember, I believe that the highlighting of some of the design research skills I learned was somewhat like a high school teacher introducing a new student to a new subject) and that my design research experience was somewhat like that of a novice. I believe that the E Symposium on Industrial and Systems Engineering (ISE) should promote an integrated learning environment that are academically rigorous through its academic advisory programs that provide mathematics, sciences, and computer systems as additional rather than engineering subjects. Integrated concepts have led to a profound impact. Physics programs, where students receive the interdisciplinary engineering and technological changes in technology. I believe that I would have the opportunity to expand on the knowledge I was introduced to as a child. I am excited to be able present to that learning system as the E Symposium on Industrial and Systems Engineering through the integration of the academic knowledge and my personal/community service as shown in my interdisciplinary curriculum.
