Veblen was one of America's most penetrating analysts of modern capitalist society. But he was not as widely assumed an outsider to the social world he acidly described. Veblen overturns the long-accepted view that Veblen's ideas, including his insights about conspicuous consumption and the leisure class, derived from his position as a social outsider. In the hinterlands of America's Midwest, Veblen's schooling coincided with the late nineteenth-century revolution in higher education that occurred under the patronage of the titans of the new industrial age. The resulting educational opportunities carried Veblen from local Carleton College to centers of scholarship at Johns Hopkins, Yale, Cornell, and the University of Chicago, where he studied with leading philosophers, historians, and economists. Afterward, he joined the nation's academic elite as a professional economist, producing his seminal books *The Theory of the Leisure Class* and *The Theory of Business Enterprise*. Until late in his career, Veblen was Charles Camic argues the consummate academic insider, engaged in debates about wealth distribution raging in the field of economics. Veblen demonstrates how Veblen's education and subsequent involvement in those debates gave rise to his original ideas about the social institutions that enable wealthy Americans a swarm of economically unproductive parasites to amass vast fortunes on the backs of productive men and women. Today, when great wealth inequalities again command national attention, Camic helps us understand the historical roots and continuing reach of Veblen's searing analysis of this sclerosis of the American soul.
