Blood from Your Children Benedict Carton, 2000 The young black activists whose rejection of their parents complacency led to the 1976 Soweto uprising and the eventual demise of apartheid are part of a long tradition of generational conflict in South Africa In Blood from Your Children Benedict Carton traces this intense challenge to an

extraordinary and pivotal episode a century ago that bitterly divided families along generational lines Facing a series of ecological disasters that crippled agriculture in the 1890s African youths in colonial Natal and Zululand perceived their fathers struggle to meet increased colonial demands as an act of betrayal Young people engaged more frequently in premarital sex while young men sparked widespread gang fights and young women rejected traditional filial and marital obligations In 1906 after the imposition of an onerous head tax on young men this domestic turmoil exploded into an armed uprising known as Bambatha's Rebellion The young men sought revenge by attacking both the African patriarchs whose apparent accommodation they considered traitorous and the colonial troops dispatched to quell the violence After the Natal forces crushed the insurrection some captured rebels faced trial for treason under martial law Often their fathers testified against them While the military intervention eventually caused many more African youths to seek work in the mines thus defusing generational turmoil others moved to industrial centers in the wake of the uprising These young people formed the vanguard of insurgent political groups that continue to play an important role in South African urban life Through his lively and thorough presentation of the forces at work in Bambatha's Rebellion Benedict Carton brings a fresh understanding to the tragic role of defiant youth and generational rivalry in African resistance **The Age of Upheaval** David Brooks, 2024-07-30

A study of one of the most intense and formative periods of modern political history The years 1899-1914 witnessed a fundamental challenge to many Victorian values and institutions Free Trade the new Poor Law the House of Lords the Irish Union all were under attack while organized labour and the feminist movement displayed an unprecedented assertiveness and aggression Drawing on a variety of sources this work examines what made these years the most politically turbulent between the Chartist era and today It emphasizes the long shadow cast by the South African War and the challenges to national identity posed by imperialism and by the Irish nationalist movement Consideration is also given to the 1906 Liberal landslide victory and the way in which this aroused expectations that could not always be fulfilled The author offers his own perspectives on the leading figures of the day Chamberlain Balfour Lloyd George Asquith and Churchill While the emphasis of the book is on political thought the author also sets his discussion within the broader context of social and economic change This study is designed for A level and undergraduate students of Edwardian history **Unstable Ground** Rosalind C. Morris, 2025-03-04 What has gold done to people What has it made them do The Witwatersrand in South Africa once home to the world's richest goldfields is today scattered with abandoned mines into which informal miners known as zama zamas venture in an illicit often deadly search for ore Based on field research conducted across more than twenty five years around these mines Unstable Ground reveals the worlds that gold made possible and gold's profound costs for those who have lived in its shadow and dreamt of its transformative power From the vantage point of the closure of South Africa's gold mines Rosalind C Morris reconsiders their histories beginning in the present and descending into the pasts that shaped them Anchored in evocative descriptions of mining in the ruins this book explores the social worlds built on gold and the lives that

were remade and sometimes undone by the industry over a century and a half Viewing this industry from its margins against the backdrop of the cyanide revolution the gold standard s demise and recurrent sinkholes as well as the insurrectionary protests and violence that continue to this day it recasts the history of South Africa and the incomplete effort to overcome apartheid amid the transformations of the global economy In writing that is by turns immersive incisive and poetic Morris unearths a history that was born of imperial aspiration and that persists as a speculative mirage Interweaving ethnography history personal testimony and political thought with striking readings of South African literary texts *Unstable Ground* is a work of extraordinary ambition and depth
