

Billing for Vaccines in Skilled Nursing Facilities: A Guide

Coding

The Centers for Medicare and Medicaid Services and the American Medical Association (AMA) have established codes for billing vaccines.

There are two components to billing any vaccine administered: the vaccine product/ingredients and its administration.

For the most up-to-date information on specific codes, visit the following websites:

Roster Billing:

Roster billing with your MAC:

www.cms.gov/medicare/payment/covid-19/definitions

Medicare Claims Processing Manual, Chapter 6 with consolidated billing guidance:

www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/clm104c06.pdf

Medicare Claims Processing Manual, Chapter 18 with vaccine guidance:

www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/clm104c18pdf.pdf

Specific Codes

Updated COVID-19 CPT codes:

www.ama-assn.org/practice-management/cpt/covid-19-cpt-vaccine-and-immunization-codes

List of CPT/HCPCS codes:

www.cms.gov/medicare/regulations-guidance/physician-self-referral/list-cpt/hcpcs-codes

In skilled nursing facilities, a vaccine may be billed by the facility or the long-term care pharmacy, depending both on whether a resident is in their Part A stay as well as what vaccine is being administered.

Staff

The LTC pharmacy can procure and bill for staff vaccination but it is typically considered out of network and not covered, leaving the facility or individual staff member to cover the bill.

The facility can choose to eat the cost of the vaccine or send staff elsewhere (eg, retail pharmacy or provider office that is a part of the insured staff person's network)

For COVID-19, uninsured staff can go to CVS/Walgreens, state they are uninsured, and use the Bridge Access Program. For other pharmacies who have applied to be Bridge Access Providers with eTrueNorth, an individual has to go online and get a QR code to prove they are uninsured.

Elementary Science Methods Lauren Madden, 2022-01-12 As teachers and parents we often hear that children are the best scientists Great science teachers tune in to children's interests and observations to create engaging and effective lessons This focus on the innate curiosity of children or humans overall is celebrated and used to justify and support efforts around STEM teaching and learning Yet when we discuss elementary school teachers we often hear many inside and outside the classroom report that these teachers dislike fear and feel uncomfortable with science This is exactly the opposite approach from what is universally recommended by science education scholars This practical textbook meets the immediate contextual needs of future and current elementary teachers by using an assets based approach to science teaching showing how to create inquiry based lessons differentiate instruction and lesson design based on children's developmental ages and needs and providing easy to use tools to advocate for scientific teaching and learning guided by the Next Generation Science Standards NGSS
