Uj June Question Paper 2015 2016:

Time to Think Hannah Barnes, 2024-07-02 SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON FICTION SHORTLISTED FOR THE ORWELL PRIZE FOR POLITICAL WRITING This is what journalism is for Observer Time to Think goes behind the headlines to reveal the truth about the collapse of the world's largest gender service for children Are we hurting children That's the core question at the heart of Time to Think which exposes the truth about the rise and fall of the United Kingdom's flagship gender identity clinic for children Answering in the affirmative it exposes how ideology triumphed over evidence within this part of the healthcare system In the process child safeguarding was overlooked and paediatric patients were medically harmed As investigative journalist Hannah Barnes reveals the Tavistock's Gender Identity Development Service GIDS was set up initially to provide talking therapies to young people who were questioning their gender identity But in a little over a decade it referred around two thousand children some as young as nine years old for medication to block their puberty In the same period with ever greater numbers of children in need of treatment the profile of the patients changed from largely pre-pubescent boys to mostly adolescent girls who were often contending with other medical and psychological difficulties GIDS was shut down by English health authorities in March 2024 and new services will not be able to prescribe these profound medical interventions Yet GIDS's approach to treating children with gender identity distress was in fact more cautious than that observed in other countries including notably in the United States This urgent scrupulous and dramatic book explains how GIDS was the site of a serious medical scandal As this scandal continues to unfold and even accelerate within other institutions and across countries it is a gripping parable and disturbing cautionary tale for our times

Troublemakers Stephen Crossley, 2018-04-04 The launch of the Troubled Families Programme in the wake of the 2011 riots conflated poor and disadvantaged families with anti

social and criminal families The programme aimed to turn around the lives of the country's most troubled families at a time of austerity and wide ranging welfare reforms which hit the poorest families hardest This detailed authoritative and critical account reveals the inconsistencies and contradictions within the programme and issues of deceit and malpractice in its operation It shows how this core government policy has stigmatised the families it claimed to support Paving the way for a government to fulfil its responsibility to families rather than condemning them this book will empower local authority workers policy makers and researchers and anyone interested in social justice to challenge damaging aggressive neoliberal statecraft

Gender, Power and Sexual Abuse in the Pacific Emily J. Manktelow, 2018-07-26 In 1843 on the island of Tahiti the evangelical missionary Rev Alexander Simpson was accused of sexually assaulting three of the female students under his care and of taking improper liberties with at least three more The events did not come out in public for at least a decade while Simpson's power in the local community only grew and rumblings relating to his wrong doings were ruthlessly crushed By exploring the case of Rev Simpson Emily Manktelow gives us key insights into the gender power and racial dynamics of a particular case of sexual abuse on the frontiers of European colonialism She explores the social and sexual context of clerical abuse considers the hierarchies of gender and power that determined how the case was handled and investigates the nature of colonialism gender and abuse in the 19th century The uncomfortably timely content of *Gender Power and Sexual Abuse in the Pacific* allows us to interrogate the way we deal with and represent issues of abuse authority and childhood It aims to give voice to those whom the archive has silenced and to listen to what they have to tell us about gender sexuality and abuse in the modern world

Redesigning Petroleum Taxation Emre Üşenmez, 2018-10-15 Since its inception some 40 years ago petroleum specific taxation in the UK has been subject to numerous modifications Often these modifications were brought into place not only to sufficiently incentivise the investors but also to capture a fair share for the government However it is evident from the frequency of

changes that finding the right balance between these two aims is no easy matter Such a balance and the consequent fiscal stability is necessary for the long term relationship between the parties to endure to their mutual benefit Still it does not take much for one or other party to feel that they are out of balance As a consequence one party feels that the other party is taking an undue proportion of the value generated and that they are losing out Yet achieving that balance and fiscal stability is possible To understand this possibility this book first clarifies what is meant by sufficient incentivisation and fair share before developing a new fiscal system that manages this balance and stability Such clarification yields objective criteria against which to assess not only the existing regime but also the newly proposed regime This approach is further complemented by the critical analysis of the fiscal legislative framework and the evaluation of the legal positions of specific contractual elements and mechanisms found within that framework This latter analysis is important in order to reduce the legal uncertainty such elements may create which can otherwise lead to further reactive amendments and revisions to the fiscal regime in the future

Crashed Adam Tooze, 2018-08-07 WINNER OF THE LIONEL GELBER PRIZE A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST S BOOKS OF THE YEAR A NEW YORK TIMES CRITICS TOP BOOK An intelligent explanation of the mechanisms that produced the crisis and the response to it One of the great strengths of Tooze s book is to demonstrate the deeply intertwined nature of the European and American financial systems The New York Times Book Review From the prizewinning economic historian and author of *Shutdown* and *The Deluge* an eye opening reinterpretation of the 2008 economic crisis and its ten year aftermath as a global event that directly led to the shockwaves being felt around the world today We live in a world where dramatic shifts in the domestic and global economy command the headlines from rollbacks in US banking regulations to tariffs that may ignite international trade wars But current events have deep roots and the key to navigating today s roiling policies lies in the events that started it all the 2008 economic crisis and its aftermath Despite initial attempts to downplay the crisis as a local incident what happened on Wall Street beginning in 2008 was in fact a dramatic caesura of global significance that spiraled around the world from the financial markets of the UK and Europe to the factories and dockyards of Asia the Middle East and Latin America forcing a rearrangement of global governance With a historian s eye for detail connection and consequence Adam Tooze brings the story right up to today s negotiations actions and threats a much needed perspective on a global catastrophe and its long term consequences

United Kingdom EU Referendum Act of 2015. Reasons and whether the benefits of the UK leaving the EU outweigh the disadvantages David Kirchbach, 2021-10-07 Research Paper undergraduate from the year 2016 in the subject Politics Topic European Union grade 15 language English abstract This paper will research the reasons for the result of the referendum with a focus on the influence of mass media and whether the benefits of the United Kingdom leaving the European Union outweigh the disadvantages of leaving against the background of the consequences that might follow with the decision of the UK After the Second World War ended in 1945 many cities towns and villages across Europe were

completely destroyed by aerial bombing and heavy artillery which led all in all to a huge suffering of the citizens all over Europe A common expression after 1945 was Never again symbolising the desire to prevent another world war and such a devastation all over the globe but also especially in Europe To make this idea come true the six European countries Belgium France Germany Italy Luxembourg and the Netherlands founded the European Coal and Steel Community in 1950 which was the beginning of a growing supranational confederation later becoming the guarantee of peace between the European countries on their own continent today known as European Union Back in 1973 when the European Communities still was in its initial stage the United Kingdom containing of England Wales Scotland and Northern Ireland officially joined the EC raising the number of member states to nine The European Union has since then changed a lot allowing not only goods to be transported inside the EU without customs costs but also allowing the citizens of the member states to move around without any border restrictions Despite these and further advantages many inhabitants of the UK felt uncomfortable with the EU charging billions of pounds a year for imposing too many rules and restrictions on the UK's business which is not worth the benefits in their opinion In addition many citizens shared the opinion that the UK should take back full control of its borders and reduce the number of immigrants on their island Consequently David Cameron the Prime Minister of the UK introduced the EU Referendum Act in 2015 which included a plebiscite to decide whether the UK will stay in the European Union or not The vote itself took place on the 23rd June 2016 in the United Kingdom having had the result of about 52% of the voters having voted to leave the European Union forming the absolute majority **Let There Be Light!** Robert S.

How to Build Houses and Save the Countryside Shaun Spiers, 2018-03-14 England has a housing crisis We need to build many more new homes to house our growing population but house building is controversial particularly when it involves the loss of countryside Addressing both sides of this critical debate Shaun Spiers argues that to drive house building

on the scale needed government must strike a contract with civil society in return for public support and acceptance of the loss of some countryside it must guarantee high quality affordable developments in the right locations Simply imposing development as recent governments of all political persuasions have attempted will not work Focusing on house building and conservation politics in England Spiers uses his considerable experience and extensive research to demonstrate why the current model doesn't work and why there needs to be both planning reform and a more active role for the state including local government

The Office for Budget Responsibility and the Politics of Technocratic Economic Governance Ben Clift, 2023-02-12 The Office for Budget Responsibility and the Politics of Technocratic Economic Governance is about the politics of economic ideas and technocratic economic governance It is also a book about the changing political economy of British capitalism's relationship to the European and wider global economies It focuses on the creation in 2010 and subsequent operation of the independent body created to oversee fiscal rectitude in Britain the Office for Budget Responsibility OBR More broadly it analyses the politics of economic management of the UK's uncertain trajectory and of British capitalism's restructuring in the 2010s and 2020s in the face of the upheavals of the global financial crisis GFC Brexit and COVID A focus on the intersection between expert economic opinion of the OBR as UK's fiscal

watchdog and the political economy of British capitalism's evolution through and after Brexit animates a framework for analysing the politics of technocratic economic governance. The technocratic vision of independent fiscal councils fails to grasp a core political economy insight that economic knowledge and narratives are political and social constructs. The book unpacks the competing constructions of economic reason that underpin models of British capitalism and through that inform expert economic assessment of the UK economy. It also underlines how contestable political economic assumptions undergird visions of Britain's international economic relations. These were all brought to the fore in economic policy debates about Britain's place in the world which in the 2010s centred on Brexit. This book analyses OBR forecasting and fiscal oversight in that broader political context rather than as a narrowly technical pursuit.
