History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John

Neubauer, 2006-09-13 Continuing the work undertaken in Vol 1 of the History of the Literary Cultures of East Central Europe Vol 2 considers various topographic sites multicultural cities border areas cross cultural corridors multiethnic regions that cut across national boundaries rendering them permeable to the flow of hybrid cultural messages By focusing on the literary cultures of specific geographical locations this volume intends to put into practice a new type of comparative study Traditional comparative literary studies establish transnational comparisons and contrasts but thereby reconfirm however inadvertently the very national borders they play down This volume inverts the expansive momentum of comparative studies towards ever broader regional European and world literary histories While the theater of this volume is still the literary culture of East Central Europe the contributors focus on pinpointed local traditions and geographic nodal points Their histories of Riga Plovdiv Timi oara or Budapest of Transylvania or the Danube corridor to take a few examples reveal how each of these sites was during the last two hundred years a home for a variety of foreign or ethnic literary traditions next to the one now dominant within the national borders By foregrounding such non national or hybrid traditions this volume pleads for a diversification and pluralization of local and national histories A genuine comparatist revival of literary history should involve the recognition that treading on native grounds means actually treading on grounds cultivated by diverse people

Spatial Readings and Linguistic Landscapes Alina Bako, 2022-03-17 Talking about space in literature and linguistics is a major challenge not only for experts in the field of the humanities but also for the broader public searching for orientation clues on the vast book market This volume offers a selection of studies which even though reliant on shared instruments apply these to different geographical spaces uniting along an imaginary axis the East and the West advancing

challenging serious and innovative analyses of prose dramatic and film texts belonging to literatures from various countries but also references to the phenomenon of migration seen through the lens of spatial correspondence or the existence of a third space dimension in the field of teaching foreign languages The journey the impassioned reader will undertake through this volume will undoubtedly offer both the pleasure of reading itself and incursions into complementary cultures an endeavour completed by the unique mechanism of a spatiality which produces knowledge Any reading engaged in through the lens of space implicitly becomes a form of owning and assuming the latter

Urban Phantasmagorias Iulia Stătică,2023-11-30 Urban Phantasmagorias examines the legacies of socialist housing in the city of Bucharest during the period of communist rule in Romania The book explores the manner in which the socialist state reconfigured the city through concrete acts of demolition and construction as well as indirectly through legal frameworks aimed at the regulation of women s reproductive agency in an attempt to materialize its idea of modernity It follows the effects of this state agenda with a focus on the period between 1965 and 1989 through an investigation of the transformations representations meanings and uses of domestic spaces The book draws on Walter Benjamin s concept of phantasmagoria which provides a critical framework through which it articulates the dynamic relationship between ideology architecture and everyday practices and reassesses their impact upon individual subjectivity and agency The woman emerges as a central subject of the book upon whom the phantasmagoric effects of the socialist state s modernizing agenda have an acute impact at the level of lived domesticity and everyday life Through a focus on the lived experiences of women the book illuminates the prismatic effect of the state s infrastructural and legal intentions including the ways in which these were subverted through women s lived bodily experiences of the home The book establishes both theoretically and through the concrete case of the city of Bucharest the methodological significance of Benjamin s notion of phantasmagoria as an epistemological approach to a modern communist cityscape Urban Phantasmagorias is an important contribution to scholarship in architectural history and theory urban and gender studies and post socialist and Eastern European studies

Confesiuni violente Nicolae Breban,2022-03-14

Dincolo de problemele grave curente ale tranziției ne preocupă din nou întrebările identității naționale ale ceea ce s-a numit specific național în prezentele confesiuni și opinii eu nu m-am ambiționat să le definesc cu atât mai puțin să le elucid. Dar după lungi decenii în care am fost împiedicat să mă exprim direct văi nu am fost singurul vă supun aceste pagini ca o contribuție personală gravă la noua și salutară literatură a membrilor care mă bogățește domeniul nostru despre care se pretinde că ar fi în criză Nicolae Breban. O carte extrem de vie o membrurie nu rareori radicală despre literatură și temele ei majore. Despre destin și carieră. Despre urcușurile rapide postdecembriste făcute de unii scriitori români care au amestecat politicul cu esteticul. Despre lumea cosmopolită în care a trăit marele scriitor. Despre deschiderea spre Europa care nu înseamnă o trăsătură a românismului. Despre labirinturile eului sau labirinturile creierului. Despre vocaia de scriitor. Scriitor afirmă romancierul Nicolae Breban, acela care s-a vindecat de toate bolile și a intrat în adevărata sa boală inventat de el însuși. Iată o definiție a unui spirit superior care s-a năzdit în roman în literatură în destinul națiunii române. Cât de violente sunt confesiunile autorului romanului. Bunăvestire în acest opus care a stârnit admirația și o suită de observații critice. Violenta în cazul dărilor este un prilej de a își asuma vocaia și radicalismul până la capăt.

This book is a collection of six papers on Communication interpreted in a neutrosophic key written by the editors Florentin Smarandache, Bianca Teodorescu and Mirela Teodorescu and other academics Daniela Găfu, Alice Ionescu, Simina Badea, Mădălina Strehie and Mihaela Gabriela Păun discussing about scientific uncertainty and argumentative employment of paradox examining the neutrosophic role of the translator and the neutrality in legal translation investigating some mentalities and communication strategies in ancient civilizations scrutinizing the metamorphosis of feelings into between reality, conscience and neutro reality in Camil Petrescu's novels or surveying the implications of Neutrosophy in Aesthetics, Arts or Hermeneutics. *Neutrosophy, Paradoxism and Communication* Ștefan Vladutescu, Dan Valeriu Voinea, Elena Rodica Opran, 2014-10-08. There are people for whom there are too few things they do not know how to do to approach them to understand them. Mentalități dominante în literatura română și engleză din secolele XIX și XX - O abordare lingvistică Ana-Maria Ionescu, 2016-01-01. Cartea pe care o avem în față este o lucrare amplă, apăsătoare, care a rezultat dintr-o cercetare interdisciplinară care acoperă o plajă largă de domenii: de la literatură comparată la lingvistică comparată și chiar istorie socială comparată. Ana-Maria Ionescu studiază literatura din perspectivă predominant lingvistică, dar nicidecum exclusiv lingvistică, demonstrând importanța analizei lingvistice nu numai în sine, ci și pentru sine, ca instrument util și necesar de lucru în alte discipline umaniste. The Canonical Debate Today Crossing Disciplinary and Cultural Boundaries re-enacts the canonical issues current in the 90s from a new perspective triggered by the changes that occurred worldwide in understanding the concepts and the status of theory in the legacy of literary studies within the field of humanities and in cultural production and reception During the last decade discussions of globalization mostly took into account its impact on the status of academic disciplines such as comparative literature or cultural studies or the reconfiguration of national literary fields These debates do not dispense with canonicity altogether but make it more urgent and necessary Canons seen as sets of norms or regulatory practices are central to the formation of disciplines to the recognition and transmission of values even to the articulation of discourses on identity on various levels The three sections of the volume deal with three interrelated subjects theories and applicable contexts of the canon Canons and Contexts recent transformations in the area of literary studies in response to the task of canon formation Reshaping Literary Studies and the challenges brought to the understanding of the canon s by the current process of re
