Michael Sutton, 2011-03 This comprehensive history shows how France coupled the pursuit of power and the furtherance of European integration over a 60 year period from the close of the Second World War to the hesitation caused by the French electorate s referendum rejection of the European Union s constitutional treaty in 2005 **Shaping Europe** Ulrich Krotz, Joachim Schild, 2013 France and Germany have played a pivotal role in European politics and integration Shaping Europe systematically investigates the interrelated reality of Franco German bilateralism and multilateral European integration from the Elys e Treaty into the Twenty first Century **The Making of D tente** Wilfried Loth, George Soutou, 2010-04-05 Containing essays by leading Cold War scholars such as Wilfried Loth Geir Lundestad and Seppo Hentil this volume offers a broad ranging examination of the history of d tente in the Cold War The ten years from 1965 to 1975 marked a deep transformation of the bipolar international system of the Cold War The Vietnam War and the Prague Spring showed the limits of the two superpowers who were constrained to embark on a wide ranging d tente policy which culminated with the SALT agreements of 1972 At the same time this very d tente opened new venues for the European countries French policy towards the USSR and the German Ostpolitik being the most evident cases in point For the first time since the 1950s Western Europe began to participate in the shaping of the Cold War The same could not be said of Eastern Europe but ferments began to establish themselves there which would ultimately lead to the astounding changes of 1989 90 the Prague Spring the uprisings in Gdansk in 1970 and generally the rise of the dissident movement That last process being directly linked to the far reaching event which marked the end of that momentous decade the Helsinki conference The Making of D tente will appeal to students of the Cold War international history and European contemporary history **Les ann es 68** Geneviève Dreyfus-Armand, Antoine de Baecque, 2000 De Berkeley Berlin de Londres Woodstock de Paris Milan autour d une courte chronologie des v nements une tude du ph nom ne contestataire et des mutations profondes de la soci t des cultures politiques et des modes de vie L'entourage du g n ral de Gaulle Eric Chiaradia, 2011 210 collaborateurs affront s 11 ann es de crises alg rienne r f rendaire pr sidentielle universitaire et sociale Dans leur immense majorit ils proviennent de la haute fonction publique civile et militaire des grands corps de l tat Un entourage diversifi mais compl

mentaire avec une tendance à l'apolitisation au profit des hauts fonctionnaires et de la technocratie. Si il reste discret, si il est peu reconnu, il sait en revanche durer lorsqu'il se compare au Général. Il forme ainsi surtout à partir de 1970 un authentique groupe gaulliste qui affirme son existence dans un travail de mémoire continu et dans la défense de l'œuvre du fondateur de la nouvelle République. Si les ouvrages sur de Gaulle sont légion, c'est pourtant un vrai sujet fort et original encore peu analysé par les historiens et les politologues qu'aborde Eric Chiaradia. Au fil d'une prosopographie efficace, il met en relief une flexibilité de qualités parfaitement maîtrisée qui vient donner un nouvel éclairage au régime gaullien. Solidement documenté, riche des sources citées comme orales et très complet, un immense travail de recherche qui fait d'une œuvre de référence. **1969**

en Europe Jean-Marc Guislin, 2010. En 2008 on a beaucoup vu et connu l'année 1968. L'année 1969 n'a pas la même renommée et pourtant elle mérite aussi l'attention des chercheurs, ne serait-ce qu'en raison d'un certain nombre de événements qui sont autant de ruptures ou de nouvelles tapes, l'intérieur de différents processus. En Europe, Willy Brandt, Edward Heath, 1970, Bruno Kreisky, 1970, Olof Palme, Georges Pompidou, mais également Marcelo Caetano et Gustav Husak arrivent sur le devant de la scène. Ces remplacements de responsables constituent-ils de véritables ruptures idéologiques, géographiques ou socioculturelles? Ne vaudrait-il pas mieux parler d'alternances de relèves ou de changements dans la continuité? Dans les dictatures, en tout cas, la relève n'implique aucune mutation majeure. Dans l'ombre de 1968, l'année 1969 apparaît à travers huit communications comme un moment moins fiévreux pendant lequel l'ampleur des renouvellements souvent modestes varie cependant nettement selon les faits considérés. Building a European Identity Aurélie Élisabeth Gfeller, 2012-07-01. The Arab-Israeli war of 1973, the first oil price shock and France's transition from Gaullist to centrist rule in 1974 coincided with the United States attempt to redefine transatlantic relations. As the author argues, this was an important moment in which the French political elite responded with an unprecedented effort to construct an internationally influential and internally cohesive European entity. Based on extensive

multi archival research this study combines analysis of French policy making with an inquiry into the evolution of political language highlighting the significance of the new concept of a political European identity La France et ses administrations : un état des savoirs Jean-Michel Eymeri-Douzans, Geert Bouckaert, 2013-06-12 En pleine congruence avec l'ambition du Groupe Européen pour l'Administration Publique d'encourager les échanges interculturels ce livre constitue une entreprise originale mi anglophone mi francophone Cet ouvrage issu du Congrès du GEAP 2010 a pour objet de combler un déplorable fossé et de donner une visibilité internationale au cas français Dès lors ce livre en 18 chapitres rédigés en français par une équipe interdisciplinaire politistes sociologues historiens socio historiens juristes avec plus de 150 pages en anglais et une vaste bibliographie unifiée entend offrir tous les spécialistes de l'administration publique de par le monde un point d'accès unique au plus récent état des savoirs sur l'administration en France ce pays où le mot état s'écrit avec un E majuscule In full compliance with the ambition of the European Group for Public Administration to encourage cross cultural exchanges this book is a genuinely original undertaking It is a hybrid Anglophone Francophone product This book from EGPA 2010 Conference purpose to bridge a regrettable gap and to give international visibility to the French case Thus this book in 18 chapters written in French by an interdisciplinary team political scientists sociologists historians sociohistorians jurists with more than 150 pages in English and a vast unified bibliography offers to all students of public administration in the world a unique entry gate to the latest state of the art of administrative studies in France this country where the State is to be spelled with a capital S **Historiens et géographes**, 2008 *Building Europe* Wilfried Loth, 2015-08-31 Relying on internal sources Wilfried Loth analyses the birth and subsequent development of the European Union from the launch of the Council of Europe and the Schuman Declaration until the Euro crisis and the contested European presidential election of Jean Claude Juncker This book shines a light on the crises of the European integration such as the failure of the European Defence Community De Gaulle's empty chair policy or the rejection of the European Constitution in France and the Netherlands but also highlights the indubitable successes that are the Franco German reconciliation the establishment of the European common market and the establishment of an expanding common currency What this study accomplishes for the first time is to illuminate the driving forces behind the European integration process and how it changed European politics and society An enlightening work A required reading for all who doubt the unfinished history of Europe Rolf Steininger Frankfurter Allgemeine Zeitung This book will become an indispensable standard work Jörg Himmelreich Neue Zürcher Zeitung **A History of Franco-German Relations in Europe** C. 100 textes sont reproduits que sur la production scientifique des historiens de l'unité européenne. Certains gouvernements et présidents des IV^e et V^e Républiques ont su marier avec bonheur relance de l'unité et influence de la France en Europe. Si dans les années d'après-guerre la politique française de construction européenne a été fondée sur la recherche de sécurité pour la France et la marque du rang mais galemment un peu sur l'idéal au temps de Guy Mollet le général de Gaulle a raté l'occasion d'unir l'Europe occidentale. Deux présidents de la République Valéry Giscard d'Estaing et François Mitterrand ont pourtant ouvert des routes nouvelles pour sortir l'Europe de l'enlisement après le premier largissement en s'appuyant sur la coopération franco-allemande. Le premier a inventé le Conseil européen et le second en collaboration avec Jacques Delors a mené bien l'Acte unique puis le Traité de Maastricht. Certes la référence fédéraliste de la Déclaration Schuman du 9 mai 1950 n'a plus jamais été affichée mais les dirigeants français ont accepté de nouveaux partages de souveraineté une fois délimités les domaines de la subsidiarité. Si pour tous il ne peut exister encore d'état européen centralisé ou fédéral le développement de la co-souveraineté entre pays de l'Union est souhaité pourvu que la France y trouve l'occasion de faire partager une philosophie politique fondée sur son histoire et de faire de l'Union un acteur des relations internationales. Faire l'Europe sans défaire la France c'est concilier l'objectif d'unité européenne et la possibilité de maintenir les ambitions et la cohésion de la nation. Cet ouvrage est enrichi d'une table chronologique sur les politiques françaises de construction européenne.

Penser et construire l'Europe
Dominique Barjot, 2007-10-24 L'histoire de la construction européenne de 1919-1992 est marquée par l'affrontement de deux aspirations essentielles l'une politique l'autre plus économique. Entre ces deux visions un choix n'a jamais vraiment été fait d'où les ambiguïtés dans lesquelles s'inscrit aujourd'hui l'action de l'Union et les mutations qui furent les siennes. Parfaitement conforme aux exigences du concours et dirigé par un groupe d'universitaires spécialistes du sujet cet ouvrage analyse les trois grandes tapes de cette évolution la période 1919-1945 marquée par l'échec des aspirations la paix puis un conflit mondial terrible qui met aux prises deux visions de l'Europe le second acte de 1946-1978 qui voit merger une réalité européenne travers la naissance de la CECA puis de la CEE la dernière période 1979-1992 qui révèle les tensions entre approfondissement et largissement. Ce processus donna lieu d'intenses débats et controverses dont tient compte le présent manuel. Celui-ci propose cartes et schémas originaux qui aideront les candidats maîtriser des mécanismes économiques et juridiques parfois complexes. Dominique BARJOT a dirigé cette publication avec la collaboration de Bernard Bruneteau Jean-Luc Chabot Michel Clapi Olivier Dard François David Emmanuel Dreyfus Gérard Ducrey Marie-Claude Esposito douard Husson Renaud Meltz et Christophe Reveillard.

Elitism, Populism, and European Politics Jack Hayward, 1996-03-28 In the 1990s there has been an increasingly widespread sense that the governing elites are losing touch with their peoples leaders are no longer able to count upon the acquiescence of their citizens to which they were accustomed. The disenchantment has resulted in the loss of public support for the political institutions of both the individual European nation states and of the European Union. Taking elitism and populism as the opposite poles between which the political leaders need to steer the contributors successively

consider why there appears to have been a degeneration in the quality of elite leaders with civil societies turning against their governments and the elite mediators between the powerless and the powerful The agenda setting role of the media the rival appeals to representation and referendum the problems encountered by political parties and organised interests and the tensions between public demand and economic constraints are all discussed The chapters suggest that the need to lead from the front rather than from behind remains indispensable in elitist democracies French Foreign Policy since 1945 Frédéric Bozo, 2016-08-01 When Charles de Gaulle declared that it is because we are no longer a great power that we need a grand policy he neatly summarized France's predicament on the world scene In this compact and engaging history author Frédéric Bozo deftly recounts France's efforts to reconcile its proud history and global ambitions with a realistic appraisal of its capabilities from the aftermath of World War II to the present He provides insightful analysis of the nation's triumphs and setbacks through the years of decolonization Cold War maneuvering and European unification as well as the more contemporary challenges posed by an increasingly multipolar and interconnected world
