Cherchez la femme Erika Fülöp, 2011-05-25 Throughout history the most fundamental values at the basis of societal organization and culture were determined and sanctified almost exclusively by men including the values traditionally associated with women such as corporeal beauty purity motherhood or empathy However from ancient times and increasingly toward the end of the second millennium women have succeeded in finding ways to overcome such limits and have made their contributions to the revision of values and to the establishment of new ones *Cherchez la femme* offers a selection of essays inquiring into the nature of aesthetic linguistic cultural and social values created informed or reformed by women in the French speaking world as well as studies on how the discourse of male power used female figures to strengthen its own position With topics ranging in time from Semiramis s ancient legend to today and in space from Qu bec to Haiti metropolitan France and New Caledonia the volume shares the richness and fruitfulness of the female perspective in art culture theory and political action

Guida e consigli per gli emigranti italiani negli stati uniti e nel Canada Alberto Clot, 1916 Montesquieu's Idea of Justice Sheila Mary Mason, 2012-12-06 Part One of Montesquieu s Idea of Justice comprises a survey of the currency in philosophical ethical and aesthetic debate during the second half of the 17th century of the terms rapport and convenance which are central to the enigmatic definition given to justice by Mon tesquieu in Lettres Persanes LXXXIII In this survey attention is concen trated on the way in which the connotations of these terms fluctuate with

the divergent development of the methodological and speculative outgrowths of Cartesianism into two schools of thought: materialist and idealist, often widely at variance in their views of the nature and organization of the universe. In Part Two, Montesquieu's definition of justice is set against this background, whose doctrinal conflicts, because of the characteristic associations of its key terms, it may be taken to reflect just as it may be held to epitomize by virtue of its elaboration in the opening chapter of *De l'Esprit des Lois* and its close terminological affinities with the definition of law there given. An undoubtedly related conflict between the implications of causal determinism and the aspirations of idealist metaphysics, surviving at the heart of Montesquieu's outlook and remaining unresolved, often said to impair the coherence, if not the validity, of his theory of society. Interventions et thérapies brèves : 12 stratégies concrètes Yves Dautrevel, 2020-09-01

Si les thérapies brèves sont une méthode alternative aux approches traditionnelles et permettent une solution rapide pour un certain nombre de troubles psychologiques, elles bouleversent toutefois la relation d'aide dans le domaine psychologique médical et psychiatrique, mais aussi social. C'est pourquoi il est nécessaire d'apporter au thérapeute un éclairage clinique approfondi lui permettant de mieux maîtriser toutes les dimensions de ces thérapies. Par leur approche très pragmatique de ces différentes situations, les auteurs répondent ainsi aux questions que se posent les thérapeutes sur des thèmes aussi variés que les troubles anxieux, la dépression, l'alcoolisme, l'utilisation de la thérapie brève sous contrainte dans un service fermé ou avec des patients psychotiques. Pour cette nouvelle édition, entièrement mise à jour et augmentée de deux nouveaux chapitres, viennent enrichir l'ouvrage le premier, qui traite de l'apport des thérapies brèves systématiques dans l'accompagnement des troubles du spectre autistique, le second, qui se concentre sur la contribution des thérapies brèves plurielles dans l'accompagnement et les soins en fin de vie. Quant au chapitre sur l'alcoolisme, il a été largement enrichi et est désormais consacré à l'addictologie dans son aspect plus général. Cet ouvrage s'adresse ainsi aux psychiatres, psychologues, psychothérapeutes, infirmières soignantes et travailleurs sociaux. Yourcenar Dramaturge Martine J. Kincaid, 2005

Theatre of ideas, the theatre of Marguerite Yourcenar lets us foresee the philosophical fabric which implies its writing, a vision of the world with lucid tragic and revolutionary time. Order and measurement characterize the style of Yourcenar. This is **Paideia**.

Anna-Teresa Tymieniecka, 2013-04-17. The education of humanity is the key to the next century's culture, its social and practical life. The main concerns of education are perennial, but the continuous flood of inventions, the technological innovations that reshape life, calls for a radically new appraisal of the situation, such as only philosophy can provide. Answering the call of humanity for the measure, sense of proportion and direction that could reorient present and future education, the phenomenology of life, integral and scientific in a dialogue with the arts, the sciences and the humanities, proposes an ontopoietic model of life's unfolding as the universal paradigm for this reorientation. Taking the Human Creative Condition as its Archimedean point, it offers a unique context for a fresh investigation of the concerns of education, both perennial and immediate.
