Prague Linguistic Circle Papers Eva Haji?ová,Petr Sgall,Jiri Hana,2002-01-01 The fourth volume of the revived series of Travaux du Cercle linguistique de Prague brings three contributions by J Vachek O Le ka and V Skalicka connected with the classical period of the Prague School as well as papers delivered at the conference Function Form and Meaning Bridges and Interfaces held in Prague in 1998 Some of the contributions concern issues of grammar of different languages including a syntactic annotation of a large Czech text corpus a comparison of Hebrew conditionals with English a characterization of the typology of the Indo European verb A further part focuses on topic focus articulation information sentence structure functional sentence perspective with a concept of perspective introduced as close to but distinct from topic and with three different viewpoints on the semantics of information structure Two broader essays on the nature of language are then presented while the last section analyzes the structure of free verse The volume represents a contribution to the continuing fruitful interaction between the work of the Prague School and the more and less closely related approaches of linguists in other countries

Prague Linguistic Circle Papers Eva Hajicová,Tomas Hoskovec,1999 This volume is the third one of the revived series of Travaux which was the well known international book series of the classical Prague Linguistic Circle published in the years 1929 39 The tradition of the Circle still attracts attention in broad circles of European and American linguistics

Isaac Vossius and his Circle F.F. Blok,2021-10-18 This book gives a detailed account of the most interesting period in the life of the Dutch humanist scholar Isaac Vossius Leiden 1618 Windsor 1689 It is largely based on Vossius s extensive correspondence much of which has never been published before In particular Isaac s correspondence with his father Gerardus Joannes Vossius has been thoroughly investigated and is a prime source of information here Isaac Vossius s travels through England France and Italy followed his formative years at Leiden and Amsterdam during which time he had come under the strong influence of the French scholar Claude Saumaise A narrative account of these travels is given and Vossius s contacts with the various circles of scholars that he encountered are discussed in detail Such contacts allowed him to enter libraries otherwise difficult of access and there he continued his search for manuscripts Vossius s period as a wandering scholar can be said to have been rounded off with the year that he spent in Paris as secretary to Hugo Grotius All this time Vossius was building up his own collection of books and the fruits of these library researches were the philological editions that he began to publish in the four years that followed A new phase of Vossius s life opened in 1648 when Queen Christina of Sweden invited him then still only thirty to come to her court The following six years were the most turbulent in the scholar s life He became the queen s tutor in Greek and also her personal confidant Under Vossius s guidance the queen steeped herself in the study of Plato and the Neoplatonists while the philosophy of Descartes whom she likewise invited to Stockholm seems to have held little interest for her It was while Vossius was at the Swedish court that he finally came into open conflict

with Saumaise his former mentor Vossius built up a magnificent library for Christina This collection was however dispersed even before it has been completed though unfortunately not before Vossius s own books had been inadvertently incorporated into that library With the queen s approval Vossius then selected a new collection for himself from the royal library In 1655 Vossius disillusioned withdrew to the quiet of his own study in The Hague Since 1690 his collection of books and manuscripts has been housed in the University Library at Leiden where it forms the basis of the international fame of that institution

The quarterly journal of pure and applied mathematics ,1884 **The Quarterly Journal of Pure and Applied Mathematics** James Joseph Sylvester,James Whitbread Lee Glaisher,1885 *Circle of Stars* Dermot Hodson,2023-11-07 A compelling new history of the EU and the people who sought to shape and challenge it from Maastricht to today The European Union is the most ambitious and one of the most contentious international organizations ever created Decisions made in Brussels shape the lives of over 500 million Europeans and its laws and policies resonate around the world But how has the EU endured over three turbulent decades marred by crises at home and abroad In this major account Dermot Hodson traces the development of the EU from its establishment in 1993 through to Brexit Covid 19 and the invasion of Ukraine Hodson shows how the union has been held together not by faceless technocrats but national leaders who stood together in times of turmoil despite a fierce backlash from a new generation of right wing populists Circle of Stars offers a rich appraisal of Europe s troubled past and turbulent present focusing on the people who built the EU as we know it today *Quarterly Journal of Pure and Applied Mathematics* ,1883 The Creative Circle African Literature Association. Meeting,African Literature Association,2003 The theme of the 2001 African Literature Association conference translation encompasses more than the movement of expression from one language to another it not only includes the translation of one culture to another but also the translating of the particularities of historical and personal experience into the broader context of humanity Includes the four addresses given at the conference on this topic by Nadine Gordimer Assia Djebar Emmanuel Dongala and Nuruddin Farah **Perikles and His Circle** Anthony J. Podlecki,2013-09-05 Perikles the creator of the reputation of Classical Athens was an enigmatic figure This book traces Perikles development from a somewhat hesitant though left leaning politician to a mature statesman fully committed to expanding Athens maritime empire and using the material benefits of that empire to improve the ordinary lives of Athenian citizens Podlecki examines Perikles actions and interactions with a large and varied circle of friends acquaintances and political adversaries and shows how his circle of friends advised and influenced his development as a leader Perikles the first citizen as Thucydides termed him was a man characterised by a subtle versatility and tenacity of purpose Of paramount importance was that Athenians be made to appreciate their superiority and also develop a willingness to assert it even if that meant war with the Spartans and their allies Podlecki examines the wealth of sources and documentation on Perikles to provide a lucid account of the achievements of the man which is both comprehensive and eminently readable **Le Corbusier's Formative Years** H. Allen Brooks,1999-05 In Le

Nathalie Sarraute and the Feminist Reader Sarah Barbour, 1993 Situated at an intersection of feminist critical practice in the United States and feminist cultural theory in France Nathalie Sarraute and the Feminist Reader is an investigation of the way in which this French New Novelist's first eight works in their increasing dramatization of the issue of reading problematize certain feminist literary analyses especially in relation to *l'écriture féminine* After an exploration of the difficulty Sarraute's writing poses for the critical enterprise through a lengthy reading of Sarrautian criticism in the U S and France Sarah Barbour shows how Sarraute's works eventually prohibit any fixed reading and open up instead a space in which we as readers are moved toward a more personal understanding of our use of narrative and of socio sexual constructs in the continual day to day constitution and reconstitution of subjectivity Nathalie Sarraute conceives of the evolution of the novel as a movement through history and thus situates her work within a tradition of psychological realism at the same time that she proposes radical innovations of the tradition Her novels do not discard or revise past works but rather internalize them in an effort to expand the notion of what is possible for psychological realism This study takes as its model Sarraute's example of simultaneity which invites an understanding of time both as a diachronic movement through phases from the psychological realism of Dostoyevski to that of Kafka to her own and as a synchronic encounter that elicits simultaneous relationships to different phases Within the movement of feminist literary criticism scholars have often discerned what are also referred to as phases that is criticism in the United States has moved from its initial concern with images of women in fiction by male writers to a desire to establish a feminine tradition of women's writing Nathalie Sarraute and the Feminist Reader is not an attempt to claim that Sarraute's work represents *écriture féminine* Reading Sarraute's novels in their evolution Sarah Barbour has found that they forced her own reading and understanding of this term to evolve She therefore proposes that the novels open up a space that is beyond the frozen shells of gender which continue to bind women and men personally and critically The power of Sarraute's work lies in the solitary experience of our encounter with her presentation and perception of reality In this encounter we are forced to experience the fluid nature of subjectivity that is to internalize and explore differences within personal and sexual identity that by extension affect the identity of larger political movements
