	Part of a circle	Part of a set	Part of a number line	Part of a length
				
1/3	2 out of 3	4 out of 6	3 out of 4	1 out of 2
2/3	two-thirds	four-sixths	three-fourths	one-half

Students will need to know a mixed number is a whole number and a fraction.

	There are 3 whole pizzas = 3 There is half of another pizza = 1/2 The mixed number is 3 1/2 (read: three and a half)
	There are 3 whole pizzas = 3 There is 1 of 4 pieces of another pizza = 1/4 The mixed number is 3 1/4 (read: three and one-fourth)

Color the fractions below to match the mixed number.

Students will be expected to compare fractions with like denominators, using the numerator.

6th Grade Virginia SOL Test Prep Mark Shannon, 2018-01-22 This test prep is good for kids who are on the fence and having trouble passing or need to increase their margin These kids will often say I DON'T KNOW WHERE TO START when explaining their confusion This book addresses that problem with three approaches 1 In contrast with the other study guides that use random questions in their practice exams this book collated the questions into chapters based on the logic to solve them The 6th grade book is divided into eight chapters They are Logic Arithmetic Geometry Fractions Reading Graphs and tables Measurements including a ruler basic statistics and order of operations This book teaches basics then goes into practice exams with word problems Once the student is proficient with the questions organized into chapters then they are ready for random questions 2 This study guide has thousands of practice problems I have placed over 3100 videos on YouTube showing you how to work the problems 3 I reviewed several years of past exams and placed enclaves on the easiest and most common questions Mastering these questions should yield a 75% to 80% If a student is already achieving this percentage the other guides or web site with random questions and covering all material might be best A book might be better for your student than the web sites for two reasons 1 The more common and easiest questions are using a ruler to measure The web designers don't know the size of your computer screen and can't determine if the student has measured correctly We can get a high percentage of these problems easily 2 When studying on a computer there are too many websites with the answers With a book parents can have greater assurance the work is being done This book is developed by a trained professional out of concern It is not the product of a large publishing house It is the results of one person who wants to help Best Regards Mark Shannon
