Arctic Hysteria and Other Strange Northern Emotions Elise Nykänen, 2024-11-08 Arctic Hysteria and Other Strange Northern Emotions Case Studies in Finnish Literature opens a new perspective on the thriving area of research on the imagined North by studying emotions in the light of case studies in Finnish literature The volume addresses the cultural history of Arctic hysteria and maps other strange emotions depicted and evoked in literature of the Finnish North The volume comprises seven case studies which range from the works of internationally renowned authors such as Rosa Liksom Emmi Itäranta and Tove Jansson to the affectively controversial and provocative writings of Timo K. Mukka Marko Tapio and Pentti Linkola Drawing from the study of the imagined North and theories and tools in the study of literature and emotions the analyses show how such moods as melancholia ecstasy or a peculiar sense of November are generated in texts and how literary emotions entangle with the Northern environment they depict By focusing on the imagined North in Finnish modernism and contemporary literature the authors offer original views on experiences of late modernity merging with the changing Northern environment in the age of the Anthropocene *Making Nordic Historiography* Pertti Haapala, Marja Jalava, Simon Larsson, 2017-09-01 Is there a Nordic history If so what are its origins its scope and its defining features In this informative volume scholars from all five Nordic nations tackle a notoriously problematic historical concept Whether recounting Foucault's departure from Sweden or tracing the rise of movements such as aristocratic empiricism each contribution takes a deliberately transnational approach that is grounded in careful research yielding rich nuanced perspectives on shifting and contested historical terrain *Lived Nation as the History of Experiences and Emotions in Finland, 1800-2000* Ville Kivimäki, Sami Suodenjoki, Tanja Vahtikari, 2021-06-07 This open access book uses Finland in the nineteenth and twentieth centuries as an empirical case in order to study the emergence shaping and renewal of a nation through histories of experience and emotions It revolves around the following questions What kinds of experiences have engendered national mobilization and feelings of national belonging How have political and societal conflicts turned into new communities of experience and emotion What kinds of experiences have been integrated into or excluded from the national context in different instances How have people internalized or contested the nation as a context for their personal family and minority group experiences In what ways has the nation entered and affected people's intimate spheres of life How have national experiences been transmitted to children in the renewal of the nation This edited collection points to the histories of experience and emotions as a novel way of studying nations and nationalism Building on current debates in nationalism studies it offers a theoretical framework for analyzing the historical construction of lived nations and introduces a number of new methodological approaches to understand the experiences of the nation extending from the investigation of personal reminiscences and music records to the study of dreams and children's drawings **Väinö Linna - tunnettu ja tuntematon** Jyrki Nummi, Maria Laakso, Toni Lahtinen, Pertti Haapala, 2020-08-12 Nykynä kulmia Väinö Linnaan Kaikkia

The Narrative Turn in Urban Planning Lieven Ameel, 2020-11-15 Narratives in the context of urban planning matter profoundly Planning theory and practice have taken an increasing interest in the role and power of narrative and yet there is no comprehensive study of how narrative and concepts from narrative and literary theory more broadly can enrich planning and policy The Narrative Turn in Urban Planning addresses this gap by defining key concepts such as story narrative and plot against a planning backdrop and by drawing up a functional typology of different planning narratives In two extended case studies from the planning of the Helsinki waterfront it applies the narrative concepts and theories to a broad range of texts and practices considering ways toward a more conscious and contextualized future urban planning Questioning what is meant when we speak of narratives in urban planning and what typologies we can draw up it presents a threefold taxonomy of narratives within a planning framework This book will serve as an important reference text for upper level students and researchers interested in urban planning
