Continued Violence and Troublesome Pasts Ville Kivimäki, Petri Karonen, 2017-05-23 In most European countries the horrific legacy of 1939 45 has made it quite difficult to remember the war with much glory Despite the Anglo American memory narrative of saving democracy from totalitarianism and the Soviet epic of the Great Patriotic War the fundamental experience of war for so many Europeans was that of immense personal losses and often meaningless hardships The anthology at hand focuses on these histories between the victors on the cases of Hungary Estonia Poland Austria Finland and Germany and on the respective often gendered experiences of defeat The book s chapters underline the asynchronous transition to peace in individual experiences when compared to the smooth timelines of national and international historiographies Furthermore it is important to note that instead of a linear chronology both personal and collective histories tend to return back to the moments of violence and loss thus forming continuous cycles of remembrance and forgetting Several of the authors also pay specific attention to the constructed and contested nature of national histories in these cycles The role of these in between countries and even more their peoples multifaceted experiences will add to the widening European history of the aftermath thereby challenging the conventional dichotomies and periodisations In the aftermath of the seventieth anniversary of 1945 it is still too early to regard the post war period as mere history the memory politics and rhetoric of the Second World War and its aftermath are again being used and abused to serve contemporary power politics in

Untimely Sacrifices Daena Aki Funahashi, 2023-04-15 Untimely Sacrifices questions why individuals may give their time and energy to the collective against their own self interest Turning to Finland where public health officials named occupational burnout as a new hazard of the new economy Daena Funahashi asks What moves people to work to the point of pathological stress Contrary to health experts who highlight the importance of self management and energetic conservation Funahashi questions the very economic premise of cognitive psychology that one could economize one's energy and thus save oneself By pitting anthropological takes on sacrifice next to the clinical discourses on pressure work and coping Funahashi offers ways to rethink what drives stress Untimely Sacrifices also provides a compelling critique of state welfare and political economy contesting the tendency to treat the gift economy as something separate from the force that makes redistributive mechanisms of state welfare work It is a book essential to those interested in how forces unassimilable to conventional economy come to matter in issues of labor stress and welfare

Nordic Narratives of the Second World War Henrik Stenius, Mirja Österberg, Johan Östling, 2015-01-01 Written by leading Nordic historians this analysis discusses postwar memory and war historiographies from the perspectives of Denmark Finland Iceland Norway and Sweden vis à vis the Second World War Focusing on the relationship between scholarly and public understandings of the war this book presents the overarching themes that set apart the Nordic experience while remaining attentive to the distinctive characteristics of war time in each of the five different countries A major contribution to the international debate on postwar memory this fascinating account speaks to all those who have an interest in the modern European history Aleksis Kivi and/as World Literature Douglas Robinson, 2017-03-06 Aleksis Kivi 1834 1872 is Finland's greatest writer His great 1870 novel The Brothers Seven has been translated 59 times into 34 languages Is he world literature or not In Aleksis Kivi and/as World Literature Douglas Robinson uses this question as a wedge for exploring the nature and nurture of world literature and the contributions made by translators to it Drawing on Deleuze and Guattari's

notion of major and minor literature Robinson argues that translators have mainly majoritized Kivi translated him respectfully and so created images of literary tourism that ill suit recognition as world literature Far better he insists is the impulse to minoritize to find and celebrate the minor writer in Kivi who sends the major language racing

Swedish and Finnish Historiographies of the Swedish Realm, c. 1520-1809 Miia Kuha, Petri Karonen, 2023-08-25

In the early modern era two Nordic countries that are neighbours today Sweden and Finland formed one realm Yet modern history writing has largely ignored this unity instead developing analysis and discussion in close connection to nationalistic ideas national politics and processes of state building Historians of both countries have therefore mostly approached their common past separately and academic history in both countries has taken its own course of development leading to different emphases This volume explores the common early modern history between Sweden and Finland from the Middle Ages to beginning of the 19th century and how this history has been created in professional historiography 1860 2020 which methods have been used and which themes studied Based on extensive source material including a database of history publications in different fields in both countries this book offers a fresh scholarly approach to the study of historiography through a unique comparative perspective This book is an excellent resource for students and professional researchers alike through providing an alternate view on the history of Sweden and Finland and providing key insight into the historiography of these two countries and the similarities and differences they showcase
