This essential practical resource will serve teachers and educators in both primary and secondary schooling as well as pre-service educators. It will also be of interest to parents and carers. *International Books in Print*, 1986. *Understanding by Design* Grant P. Wiggins, Jay McTighe, 2005. What is understanding and how does it differ from knowledge? How can we determine the big ideas worth understanding? Why is understanding an important teaching goal and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design*. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage and activity-based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of *Understanding by Design* apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new edition of *Understanding by Design* offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

Multicultural Curriculum Transformation in Literacy and Language Arts Amanda VandeHei-Carter, Nayelee Villanueva, Christine Clark, 2021-10-06. This book focuses on multicultural curriculum transformation in literacy and language arts subject areas. The discussion of each area outlines critical considerations for multicultural curriculum transformation for the area by grade level and then by eight organizing tools including content standards, relationships with and among students and their families, and evaluation of student learning and teaching effectiveness. The volume is designed to speak with PK-12 teachers as colleagues in the multicultural curriculum transformation work. Readers are exposed to things to think about but also given curricular examples to work with or from in going about the actual concrete work of curriculum change. This work supports PK-12 teachers to independently multiculturally adapt existing curriculum to create new multicultural curriculum differentiated by content areas and grade levels and by providing ample examples of what such multicultural transformed literacy and language arts curricula look like in practice.
