Essential Questions: What counts as a literacy practice? Facebook? Graffiti? Music? Etc... How does literature relate to my life as an Indianapolis teenager? How is literacy changing? TESOL and Sustainability Jason Goulah, John Katunich, 2020-05-14 In the burgeoning field of ecolinguistics little attention has been given to the ways in which English language teaching is and has become implicated in global ecological crises This book begins a dialogue about the opportunities and responsibilities presented to the TESOL field to re orient professional practice in ways that drive cultural change and engender alternate language practices and metaphors Covering a diverse range of topics including anthropogenic climate change habitat loss food insecurity and mass migration chapters argue that such crises require not only technological innovation but also cultural changes in how human beings relate to each other and their environment Arguing that it is incumbent upon the field of English language teaching to reckon with such cultural changes in how and what we teach TESOL and Sustainability addresses the ways in which discourses such as eco pedagogy the critique of neo liberalism non Western philosophy and post humanist thought can and must inform how and what is taught in ESL and EFL classrooms
