How to Tell the UC Essay Prompts Apart

To help tell the UC personal statement prompts apart, sort them into big-picture categories, so when you're brainstorming ideas you can see where your event or life experience would fit.

- **Topics 1 and 7** are about your engagement with the people, things, and ideas around you. Consider the impact of the outside world on you and how you handled that impact.
- **Topics 2 and 6** are about your inner self, what defines you, and what makes you the person that you are. Consider your interior makeup, the characteristics of the inner you.
- **Topics 3, 4, 5, and 8** are about your achievements. Consider what you've accomplished in life and what you are proud of doing.

These very broad categories will help when you're brainstorming ideas and life experiences to write about for your essay. Of course, it's true that many of the stories you think of can be shaped to fit each of these prompts. **Still, think about what the experience most reveals about you.**

If it's an experience that shows how you have handled the people and places around you, it'll work better for questions in the first group. If it's a description of how you express yourself, it's a good match for questions in group two. If it's an experience that tells how you acted or what you did, it's probably a better fit for questions in group three.

Austerity Blues Michael Fabricant, Stephen Brier, 2016-11-01 A generation of budget cutting has eviscerated the very idea of public higher education in America Public higher education in the postwar era was a key economic and social driver in American life making college available to millions of working men and women Since the 1980s however government austerity policies and politics have severely reduced public investment in higher education exacerbating inequality among poor and working class students of color as well as part time faculty In *Austerity Blues* Michael Fabricant and Stephen Brier examine these devastating fiscal retrenchments nationally focusing closely on New York and California both of which were leaders in the historic expansion of public higher education in the postwar years and now are at the forefront of austerity measures Fabricant and Brier describe the extraordinary growth of public higher education after 1945 thanks largely to state investment the alternative intellectual and political traditions that defined the 1960s and the social and economic forces that

produced austerity policies and inequality beginning in the late 1970s and 1980s A provocative indictment of the negative impact neoliberal policies have visited on the public university especially the growth of class racial and gender inequalities Austerity Blues also analyzes the many changes currently sweeping public higher education including the growing use of educational technology online learning and privatization while exploring how these developments hurt students and teachers In its final section the book offers examples of oppositional and emancipatory struggles and practices that can help reimagine public higher education in the future The ways in which factors as diverse as online learning privatization and disinvestment cohere into a single powerful force driving deepening inequality is the central theme of the book Incorporating the differing perspectives of students faculty members and administrators the book reveals how public education has been redefined as a private benefit often outsourced to for profit vendors who sell education back to indebted undergraduates Over the past twenty years tuition and related student debt have climbed precipitously and degree completion rates have dropped Not only has this new austerity threatened public universities ability to educate students Fabricant and Brier argue but it also threatens to undermine the very meaning and purpose of public higher education in offering poor and working class students access to a quality education in a democracy Synthesizing historical sources social science research and contemporary reportage Austerity Blues will be of interest to readers concerned about rising inequality and the decline of public higher education

Bronze Age Visionary Culture Bruce Rimell,2021-01-02 The art and iconography of the Minoan civilisation of Bronze Age Crete is rightly described as having a refreshing vitality with a fortunate combination of stylisation and spontaneity in which the artist is able to transform conventional imagery into a personal expression The dynamism torsion and naturalism evident in Minoan art stands in stark contrast to the hieratic rigidity of other ancient civilisations and nowhere is this more apparent than in the iconography of the Minoan Epiphany a set of mainly glyptic rings seals and seal impression images which appear to depict religious celebrants experiencing direct and seemingly ecstatic encounters with deities This collection of essays explores this central aspect of Minoan religion taking a strongly archaeological focus to allow the artefacts to speak for themselves and moving from traditional representational interpretations into embodied perspectives in which the ecstatic capabilities of the human body throw new light on Aegean Bronze Age ritual practices Such ideas challenge rather passive assumptions modern Western observers hold about the nature of religious feelings and experiences in particular the depictions of altered states of consciousness in ancient art and the visionary potential of dance gestures Speculative asides on the potential for a Minoan origin for Classical Greek humanism and hints in the imagery on ancient Cretan conceptions of the cosmos are set against sound archaeological theories to explain this lively and dynamic corpus of images Beautifully illustrated with images and sketches of the relevant artefacts this wide ranging volume will stimulate audiences with archaeological prehistorical and spiritual interests as well as historians of religion and art The Minoan Epiphany also represents an influential antecedent to the Visionary Humanist philosophy which forms the majority of Bruce s current independent research interests **FM 2014: Formal Methods** Cliff Jones,Pekka Pihlajasaari,Jun Sun,2014-04-18 This book
