OECD Skills Studies OECD Skills Strategy Diagnostic Report: Spain 2015 OECD, 2015-09-22 Spain's economy is showing clear signs of recovery after a protracted recession. Szmodis, 2022-09-06 This book lays the groundwork for the future of global citizenship and it discusses where we are now, where to go from here and how all of this fits into a lifelong learning context. It incorporates case studies, meta-narratives and empirical studies to support cosmopolitanism through a lifelong learning lens and is a must-read for educators, activists, non-governmental organizations, civil society and community organizations. The framing for this book is with the United Nations Sustainable Development Goal 4 in mind, ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all, with the intent that all learners will acquire the knowledge, skills and attitudes necessary to promote sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development. UN Sustainable Development Goal target 4.7. It is through this lens that this book showcases the work of researchers, practitioners, civil society and thought leaders in global citizenship for lifelong learning. While this tension between nationalism and cosmopolitanism exists, the wheels of globalization still turn and shape our local, national and global connections. Through this exploration, this book lifts up examples of global citizenship education done well across the age spectrum and in a variety of contexts. The binding factor is the core values, ethics and moral structure of a world in collaboration toward its larger human and ecological thriving. It unpacks complex topics such as ethical and cultural relativism, accountability and responsibility in a global world, decolonial education and unmaking ideas of development and ethical models for community-based global learning and engagement. What voices are missing in the discussion of global learning and global citizenship education? **The Statesman's**

OECD Skills Studies Towards a Skills Strategy for Southeast Asia Skills for Post-COVID Recovery and Growth OECD, 2021-03-02 Skills are central to the capacity of countries and people to thrive in a rapidly changing world Recovering from the COVID 19 pandemic will require countries to co ordinate interventions to help recent graduates find jobs reactivate the skills of displaced workers and use skills effectively in workplaces **Africa and the Sustainable Development Goals** Maano Ramutsindela, David Mickler, 2019-06-13 The book draws upon the expertise and

international research collaborations forged by the Worldwide Universities Network Global Africa Group to critically engage with the intersection in theory and practice of the Sustainable Development Goals SDGs and Africa's development agendas and needs. Further, it argues that and demonstrates how the SDGs should be understood as an aspirational blueprint for development with multiple meanings that are situated in dynamic and contested terrains. As the SDGs have substantial implications for development policy and resourcing at both the macro and micro levels, their relevance is not only context specific but should also be assessed in terms of the aspirations and needs of ordinary citizens across the continent. Drawing on analyses and evidence from both the natural and social sciences, the book demonstrates that progress towards the SDGs must meet demands for improving human well-being under diverse and challenging socio-economic, political, and environmental conditions. Examples include those from the mining industry, public health, employment, and the media. In closing, it highlights how international collaboration in the form of research networks can enhance the production of critical knowledge on and engagement with the SDGs in Africa.

The Handbook of Adult and Continuing Education Tonette S. Rocco, M. Cecil Smith, Robert C. Mizzi, Lisa R. Merriweather, Joshua D. Hawley, 2023-07-03. Co-published with Colleges and universities are increasingly becoming significant sites for adult education scholarship, in large part due to demographic shifts. With fewer U.S. high school graduates on the horizon, higher education institutions will need to attract non-traditional, i.e., older adult learners to remain viable, both financially and politically. There is a need to develop a better corpus of scholarship on topics as diverse as what learning theories are useful for understanding adult learning; how are higher education institutions changing in response to the surge of adult students; what academic programs are providing better learning and employment outcomes for adults in college; and how adult education scholars can offer much to the policy debates taking place in higher education. A main premise of this handbook is that adult and continuing education should not simply respond to rapidly changing social, economic, technological, and political environments across the globe but should lead the way in preparing adults to become informed, globally connected, critical citizens who are knowledgeable, skilled, and open and adaptive to change and uncertainty. The Handbook of Adult and Continuing Education provides rich information on the contemporary issues and trends that are of concern to adult

and continuing education of the programs and resources available to adult learners and of opportunities to challenge and critique the structures embedded in the field that perpetuate inequity and social injustice Adult education is a discipline that foresees a better tomorrow and The Handbook is designed to engage and inspire readers to assist the field to seek new paths in uncertain and complex times ask questions and to help the field flourish The Handbook is divided into five sections The first Foundations situates the field by describing the developments core debates perspectives and key principles that form the basis of the field The second Understanding Adult Learning includes chapters on adult learning adult development motivation access participation and support of adult learners and mentoring Teaching Practices and Administrative Leadership the third section offers chapters on organization and administration program planning assessment and evaluation teaching perspectives andragogy and pedagogy public pedagogy and digital technologies for teaching and learning The fourth section is Formal and Informal Learning Contexts Chapters cover adult basic GED and literacy education English as a Second Language Programs family literacy prison education workforce development military education international development education health professions education continuing professional education higher education human resource development and workplace learning union and labor education religious and spiritual education cultural institutions environmental education social and political movements and peace and conflict education The concluding Contemporary Issues section discusses decolonizing adult and continuing education adult education and welfare teaching social activism lesbian gay bisexual trans queer and straight allies gender and its multiple forms disability older adults and intergenerational identities race and ethnicity working class whiteness and privilege and migrants and migrant education The editors culminate with consideration of next steps for adult and continuing education and priorities for the future

Promoting sustainable local economic development initiatives Marius Venter, 2022 This book endeavours to outline case studies that promote sustainable Local Economic Development LED initiatives It is generally believed that local governments are the foot soldiers of LED However this seems to be a myth as local governments in South Africa and elsewhere have not yet fulfilled this mandate and have been struggling for several years to implement LED initiatives The distinctive merit of this book lies in the way it combines the South African context with the wider international development context in ways that there is a flow of information and ideas both ways The book is an essential part of this sequence of ideas development and action at a critical time for strategic action directed at a sustainable future It showcases case studies and responses to the impacts of globalisation as a bridge between urban rural and institutional action and reveals avenues for local government leadership in communities research student engagement and wider interactions
