Ukzn 2016 Prospectus:

Environment, Power, and Justice Graeme Wynn, Jane Carruthers, Nancy J. Jacobs, 2022-07-26 Spanning the colonial postcolonial and postapartheid eras these historical and locally specific case studies analyze and engage vernacular activist and scholarly efforts to mitigate social environmental inequity This book highlights the ways poor and vulnerable people in South Africa Lesotho and Zimbabwe have mobilized against the structural and political forces that deny them a healthy and sustainable environment Spanning the colonial postcolonial and postapartheid eras these studies engage vernacular activist and scholarly efforts to mitigate social environmental inequity Some chapters track the genealogies of contemporary activism while others introduce positions actors and thinkers not previously identified with environmental justice Addressing health economic opportunity agricultural policy and food security the chapters in this book explore a range of issues and ways of thinking about harm to people and their ecologies Because environmental justice is often understood as a contemporary phenomenon framed around North American examples these fresh case studies will enrich both southern African history and global environmental studies Environment Power and Justice expands conceptions of environmental justice and reveals discourses and dynamics that advance both scholarship and social change Contributors Christopher Konz Marc Epprecht Mary Galvin Sarah Ives Admire Mseba Muchaparara Musemwa Matthew A Schnurr Cheryl Walker *In the Balance* Hein Marais, 2022-07-01 Examines the need and prospects for a UBI As jobs disappear and wages flat line paid work is an increasingly fragile and unattainable basis for dignified life This predicament deepened by the COVID 19 pandemic is sparking urgent debates about alternatives such as a universal basic income UBI Highly topical and distinctive in its approach In the Balance The Case for a Universal Basic Income in South Africa and Beyond is the most rounded and up to date examination yet of the need and prospects for a UBI in a global South setting such as South Africa Hein Marais casts the debate about a UBI in the wider context of the dispossessing pressures of capitalism and the onrushing turmoil of global warming pandemics and social upheaval Marais surveys the meaning history and appeal of a UBI before even handedly weighing the case for and against such an intervention The book explores the vexing questions a UBI raises about the relationship of paid work to social rights about prevailing notions of entitlement and dependency and the role of the state in contemporary capitalism Along with cost estimates for different versions of a basic income in South Africa it discusses financing options and lays out the social economic and political implications This incisive new book advances both our theoretical and practical understanding of the prospects for a UBI **The Biopolitics of Water** Sofie Hellberg, 2018-03-28 Biopolitics refers to a form of politics concerned with administering and regulating the conditions of life at an aggregated level of populations This book provides a biopolitical perspective on water governance and its effects It draws on the work of Foucault to explore how notions of scarcity are used in strategies of governance and how such governance differentiates between different populations Furthermore the author investigates what such biopolitical regulation means for people s

lifestyles and the way they understand themselves and their moral responsibilities as humans individuals and citizens The book begins by investigating the global water agenda with a particular emphasis on its focus on water for basic needs and provides different examples of hydromentalities around the world It also presents rich empirical details of one local case in South Africa By carefully exploring the water stories of water users the book provides new perspectives on the relationship between water and power Additionally it offers an innovative methodological framework through which we can study the workings of governance more generally and water governance specifically It thereby contributes to the scholarship on water governance in relation to how water governance and technologies are part of producing subjectivities notions of life and lifestyles and more specifically how the global water agenda can work so as to produce or further entrench distinctions between different lives and lifestyles Ultimately such differences between individuals and populations that are produced as an effect of water governance are assessed in relation to social sustainability

The Athlete as National Symbol Nicholas Villanueva, Jr., 2020-02-04 Examining the phenomenon of nationalism in the world of sport this collection of new essays identifies moments when athletes became national symbols through their actions on and off the field Since the break up of the Soviet Union and Yugoslavia and related global events of the 1980s and 1990s scholars have explored how race ethnicity gender and sexuality shape and are shaped by nationalism and national participation Topics include race golf and the struggle for social justice in South Africa sport as a battleground within the Israel Palestine conflict multiculturalism and the Olympic Games and white privilege in sport These case studies explore the strength and fragility associated with national identity and how athletes become icons for their nations

Local Officials and the Struggle to Transform Cities Claire Bénit-Gbaffou , 2024-02-27 Why are even progressive local authorities with the will to improve seldom able to change cities Why does it seem almost impossible to redress spatial inequalities deliver and maintain basic services elevate impoverished areas and protect the marginalised communities Why do municipalities in the Global South refuse to work with prevailing social informalities and resort instead to interventions that are known to displace and aggravate the very issues they aim to address Local Officials and the Struggle to Transform Cities analyses these challenges in South African cities where the brief post apartheid moment opened a window for progressive city government and made research into state practices both possible and necessary In debate with other progressive moments in large cities in Brazil the USA and India the book interrogates City officials practices It considers the instruments they invent and negotiate to implement urban policies the agency they develop and the constraints they navigate in governing unequal cities This focus on actual officials practices is captured through first hand experience state ethnographies and engaged research These reveal day to day practice that question generalised explanations of state failure in complex urban societies as essential malevolence contextual weakness corruption and inefficiency It is hoped that opening the black box of the workings of state opens paths for the construction of progressive policies in contemporary cities

Organise or Die? Raphaël Botiveau, 2017-12-01 The story of one of the

leading trade unions in South Africa the National Union of Mineworkers and its role in the struggle against white minority rule Organise or Die Democracy and Leadership in South Africa s National Union of Mineworkers NUM is the first in depth study of one of the leading trade unions in the country Founded in 1982 the trade union played a key role in the struggle against white minority rule before turning into a central protagonist of the ruling Tripartite Alliance after apartheid Deftly navigating through workerist social movement and political terrains that shape the South African labour landscape this book sheds light on the path that led to the unprecedented 2012 Marikana massacre the dissolution of the Congress of South African Trade Unions Cosatu federation and to fractures within the African National Congress ANC itself Working with the notions of organisational agency and strategic bureaucratisation Rapha l Botiveau shows how the founding leadership of NUM built their union s structures with a view to mirror those of the multinational mining companies NUM faced Good leadership proved key to the union s success in recruiting and uniting mineworkers and NUM became an impressive school for union and political cadres producing a number of South Africa s top post apartheid leaders An incisive analysis of leadership styles and strategies shows how the fragile balance between an increasingly distant leadership and an increasingly militant membership gradually broke down Botiveau provides a compelling narrative of NUM s powerful history and the legacy of its leadership It will appeal to a broad readership including journalists students and social sciences scholars interested in South Africa s contemporary politics and labour history
