The Courts of Babylon Peter Bodo, 2011-06-17 No sport has gone through the seismic changes that rocked tennis when the game long a holdout against professionalism and creeping commercialism abandoned its roots as a genteel amateurs only enterprise and became a pro sport vying for the heart of the public with rivals like soccer NFL football or NBA basketball Peter Bodo who has covered tennis since the dawn of this Open era as the chief writer for TENNIS magazine was there to witness this transition and what it promised what it delivered He has covered the game on every continent since the early 1970s THE COURTS OF BABYLON is more than a collection of essays most of them growing out of a deep familiarity and often relationship with subjects that include Bjorn Borg Chris Evert John McEnroe Evonne Goolongong Jimmy Connors Tracy Austin van Lendl and Martina Navratilova It is also a commentary on what was lost and what was gained by the transition to professionalism and how the new Open era delivered or failed to make good on the promise that professionalism would make tennis a more inclusive egalitarian accessible game Relying heavily on formal in depth interviews conducted over two decades and his status as an insider in an insular game Bodo s book is both a meditation and expose a polemic and a tribute to the players who dragged tennis often kicking and screaming to the forefront of the public s imagination even when those players got it all too fast and too young Bodo delves into the darkest and most controversial areas of the game chronicling the follies of overzealous parents and pampered athletes He fearlessly wades into sensitive issues stemming from sex and gender politics and commercialism He celebrates the game while holding it to task all the while acknowledging the reality of the demands and distortions that come with a way of life that is both difficult but glamorous and eagerly embraced by athletes who in some cases are no older than fourteen
