Consuming Identity Ashli Quesinberry Stokes, Wendy Atkins-Sayre, 2016-11-02 Southerners love to talk food quickly revealing likes and dislikes regional preferences and their own delicious stories Because the topic often crosses lines of race class gender and region food supplies a common fuel to launch discussion Consuming Identity sifts through the self definitions allegiances and bonds made possible and strengthened through the theme of southern foodways The book focuses on the role food plays in building identities accounting for the messages food sends about who we are how we see ourselves and how we see others While many volumes examine southern food this one is the first to focus on food's rhetorical qualities and the effect that it can have on culture The volume examines southern food stories that speak to the identity of the region explain how food helps to build identities and explore how it enables cultural exchange Food acts rhetorically with what we choose to eat and serve sending distinct messages It also serves a vital identity building function factoring heavily into our memories narratives and understanding of who we are Finally because food and the tales surrounding it are so important to southerners the rhetoric of food offers a significant and meaningful way to open up dialogue in the region By sharing and celebrating both foodways and the food itself southerners are able to revel in shared histories and traditions In this way individuals find a common language despite the divisions of race and class that continue to plague the South The rich subject of southern fare serves up a significant starting point for understanding the powerful rhetorical potential of all food

Life and Death in a Small Southern Town Gayle Graham Yates, 2004-05-01 Gayle Graham Yates's hometown sits on the banks of the Chickasawhay River, boasting the live oak, dogwood and magnolia trees found throughout southern Mississippi. Like any place, Shubuta (population 650) is inhabited by good people and bad by virtue and vice. Both a literary memoir and a cultural history, this book chronicles Yates's return to the town in which she first knew goodness and came to recognize immorality. Blending folklore and personal impressions with the words of Shubuta people telling their own stories, Yates offers a rich narrative of the town from its Choctaw prehistory through the tremendous economic, political, racial and social changes that led to its present. The author's pilgrimage leads us to the Hanging Bridge where some black Shubutans were lynched to a bank that did not fail during the Great Depression and to the office of the doctor who tends broken hearts as well as broken arms. Yates takes us to Shubuta's most beautiful gardens and ugliest vacant lots, to all the stores in town, to the new post office and to the town hall. In the process, we learn how Shubuta evolved from a racially stratified town to one in which the descendants of slaves are now political leaders, librarians, business owners and police officials. Yates also tells of her own moral journey from judgmental young activist to middle-aged scholar, mellowed by experience, travel and reading, who sees her home with newfound compassion. Ultimately, she shows us Small Town southern America, a strong, frail, fascinating and complex human community.
