in Translator and Interpreter Training Maria Gonzalez-Davies, Vanessa Enríquez Raído, 2018-10-18 Situated Learning is
generally understood as a context dependent approach to translator and interpreter training under which learners are
exposed to real life and or highly simulated collaborative work environments and tasks both inside and outside the classroom
Ultimately Situated Learning seeks to enhance learners capacity to think and act like professionals This book sets out to
gauge the extent to which different factors influence the implementation of Situated Learning models in various teaching and
learning contexts It presents an understanding of Situated Learning that goes beyond previous interpretations of this notion
traditionally dominated by the discussion of pedagogical practices in authentic i e real world or semi authentic professional
settings This wider remit of Situated Learning encompasses previously underrepresented contextual factors pertaining to
