Communicative Understandings of Women's Leadership Development Elesha L. Ruminski,Annette Holba,2012-01-01 Communicative Understandings of Women s Leadership Development From Ceilings of Glass to Labyrinth Paths edited by Elesha L Ruminski and Annette M Holba intertwines the disciplines of communication studies leadership studies and women

s studies to offer theoretical and practical reflection about women's leadership development in academic, organizational, and political contexts. Women's leadership development exists at the intersection of consciousness-raising, communication competence, and education to increase one's knowledge and practice of leadership, which makes the weaving together of these three disciplines important. Thus, *Communicative Understandings of Women's Leadership Development* claims a space for women's leadership studies and acknowledges the paradigmatic shift from discussing women's leadership using the glass ceiling phenomenon to what Eagly and Carli (2007) identify as the labyrinth of leadership. Recognizing this metaphoric shift is crucial because many women now develop leadership amid the postmodern flux of organizational change. Hierarchical top-down systems are being eroded in lieu of transformational, collaborative, even improvisational leadership processes. Women's leadership studies is emerging as a fruitful interdisciplinary area that reframes the debate about whether we live, work, and learn within a third-wave feminist or post-feminist context. While this area might include feminist theorizing, it also might not emphasize such epistemologies. For this reason, Ruminski and Holba's edited collection explores and highlights a variety of feminist and non-feminist intersections and is thus an important and timely contribution to both marking where we are with women's leadership development in higher education and how women can further develop themselves as leaders.

Social Justice and Systemic Family Therapy Training Lindsey A. Nice, Christie Eppler, 2023-05-31 The book examines the lived experiences of systemic family therapy educators. It addresses the issues of power and justice that they face in family therapy training programs, including their teaching experiences with students, interactions with faculty, and challenges within academic institutions. It describes how family therapy programs attempt to incorporate cultural awareness with mixed results, e.g., focusing only on how to work with diverse clients or not supporting faculty from across social locations. The book explores the ways in which family therapy educators with intersecting marginalized identities continue to be oppressed across different areas of academia. The book addresses issues of power that systemic family therapy educators face within the academia itself at three different levels: Personal interactions with students that create more complete understanding of issues of power; Professional interactions with colleagues that provide support and accountability; Political interventions aimed at changing the larger academic institution. Chapters focus on countering unjust practices in academic settings. Authors reflect on personal experiences across these three levels and then offer concrete suggestions for intervention. These include teaching experiences or meaningful interactions with students that support empowerment or increased awareness; relationships with colleagues that promote accountability and growth and needed changes or challenges to the larger structure of academia. *Social Justice and Systemic Family Therapy Training* is an essential resource for clinicians, therapists, and practitioners as well as researchers, professors, and graduate students in family studies, clinical psychology, and public health, as well as all interrelated disciplines.
