On Air Steve Oney, 2025-03-11 An epic decade long reported history of National Public Radio that reveals the unlikely story of one of America's most celebrated but least understood media empires Founded in 1970 NPR is America's most powerful broadcast news network Despite being overshadowed by the larger and more glamorous PBS public radio has long been home to shows such as All Things Considered Morning Edition and This American Life that captivate millions of listeners in homes cars and workplaces across the nation NPR and its hosts are a cultural force and a trusted voice and they have created a mode of journalism and storytelling that helps Americans understand the world in which we live In *On Air* a book fourteen years in the making journalist Steve Oney tells the dramatic history of this institution tracing the comings and goings of legendary on air talents Bob Edwards Susan Stamberg Ira Glass Cokie Roberts and many others and the rise and fall and occasional rise again of brilliant and sometimes venal executives It depicts how NPR created a medium for extraordinary journalism in which reporters and producers use microphones as paintbrushes and the voices of people around the world as the soundtrack of stories both global and local Featuring details on the controversial firing of Juan Williams the sloppy dismissal of Bob Edwards and a 230 million bequest by Joan B. Kroc widow of the founder of McDonalds *On Air* also chronicles NPR's daring shift into the digital world and its early embrace of podcasting formats establishing the network as a formidable media empire Fascinating revelatory and irresistibly dishy this is a riveting account of NPR's unlikely launch chaotic ascent and ultimate triumph a must read for anyone interested in the history of public radio and its impact on American culture

Radio's Second Century John Allen Hendricks, 2020-03-13 Winner of the 2022 Broadcast Education Association Book Award One of the first books to examine the status of broadcasting on its one hundredth anniversary *Radio's Second Century* investigates both vanguard and perennial topics relevant to radio's past present and future As the radio industry enters its second century of existence it continues to be a dominant mass medium

with almost total listenership saturation despite rapid technological advancements that provide alternatives for consumers. Lasting influences such as on air personalities, audience behavior, fan relationships, and localism are analyzed as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation, with an emphasis on both American and international perspectives. Radio's impact on cultural hegemony through creative programming content in the areas of religion, ethnic inclusivity, and gender parity is also explored. Taken together, this volume compromises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium, radio.

Daring to Feel Jody Santos, 2009-12-22. Thou shalt remain objective is the number one newsroom commandment, but lately cracks have begun to appear in the news media's objective facade. American journalists have been pushed to the emotional brink with such recent tragedies as September 11th and Virginia Tech. Like social scientists, reporters are expected to be immune to, and even aloof from, the pain and suffering they chronicle. **Daring to Feel: Violence, the News Media, and Their Emotions** challenges this journalistic mandate, particularly as it pertains to the emotional topic of violence. Interviewing journalists who have covered some of the worst tragedies in our nation's history, Jody Santos shows what happens when the news media dare to feel. No longer detached observers, they are free to see violence in all of its emotional complexity. In allowing themselves to experience the rage, helplessness, and fear of those who have survived violence, these reporters tell deeper, more moving stories, stories that hopefully will have a profound effect on the way society views and confronts devastating problems such as child abuse and school massacres. **Daring to Feel** is not a call to scrap objectivity, but an attempt to rebalance journalism's hierarchical relationship between thinking and feeling. Rather, Santos creates an insightful new dialogue about the value of emotionally engaged reporting.

Radio's New Wave Jason Loviglio, Michele Hilmes, 2013-06-19. **Radio's New Wave** explores the evolution of audio media and sound scholarship in the digital age. Extending and updating the focus of their widely acclaimed 2001 book *The Radio Reader*, Hilmes and Loviglio gather together innovative work by both established and rising scholars to explore the ways that radio has transformed in the digital environment. Contributors explore what sound looks like on screens, how digital listening moves us, new forms of sonic expression, radio's convergence with mobile media, and the creative activities of old and new audiences. Even radio's history has been altered by research made possible by digital and global convergence. Together, these twelve concise chapters chart the dissolution of radio's boundaries and its expansion to include a wide-ranging universe of sound, visuals, tactile interfaces, and cultural roles as radio rides the digital wave into its second century.
