Socio-Cultural Insights of Childbirth in South Asia Sabitra Kaphle,2021-07-29 This book analyses the significant socio cultural factors impacting childbirth experiences of women living in remote and complex social settings This book challenges the notion that childbirth is a universal biological event which women experience in their reproductive lives and provides an in depth social perspective of understanding childbirth Drawing on evocative stories of women living in the Himalayas the author discusses how childbirth should be supported to enable women to take control and ownership of their experiences Based on extensive research undertaken in remote mountain regions of Nepal the book provides evidence for and discussion of childbirth in the context of other countries cultures and communities Utilising a feminist perspective this book critiques medical control of childbirth and argues in favour of giving power to women so that they can make decisions which are right for them In doing so the author unpacks complexities associated with women s lives in remote communities and highlights the significance of addressing broader determinants impacting birth outcomes and valuing childbirth traditions to ensure cultural safety for women families and societies Through exploring the wide range of factors influencing women and their childbirth experiences this book offers a new model for childbirth that policy makers practitioners communities educators researchers and other professionals can use to make childbirth an empowering experience for women It will be of interest to academics and professionals in the fields of public health midwifery health promotion sociology and South Asian Studies

China in India's Post-Cold War Engagement with Southeast Asia Chietigj Bajpae,2022-02-17 This book examines the role of China in driving and sustaining India s post Cold War engagement with Southeast Asia In doing so it provides a unique insight into the regional dimensions of the Sino Indian relationship India launched its Look East Policy in the early 1990s as part of a concerted effort to revive the importance of Southeast Asia in the country s foreign policy agenda This study assesses the role of the China factor defined here as China s regional role which has been interpreted through the prism of the Sino Indian relationship in the inception and evolution of the policy More specifically it establishes the extent to which China has been raised as a priority in discourses of India s Look East Policy and how this has varied over time from the origins of the policy through to the most recent phase of the renamed Act East Policy Addressing the distinction between what policymakers signal in their official statements and their true or underlying motivations the

book alludes to the fact that government officials may not always reflect true intentions in their official statements and it is often what is not said that may reveal more about their real motivations This is particularly relevant in the context of the Sino Indian relationship where diplomatic rhetoric often masks more competitive and confrontational aspects of the bilateral relationship An important analysis of the interplay between India's relations with Southeast Asia and China this book will be of interest to academics policymakers and students in the fields of International Relations Asian Security Southeast Asian politics and in particular Indian foreign policy the Sino Indian relationship and India's Look East Act East Policy

The Changing Face of Multinationals in Southeast Asia Tim G. Andrews, Nartnalin Chompusri, Bryan J. Baldwin, 2003

Examines how and why corporate strategy structure and culture is continuing to change markedly in Southeast Asia

South Asia Development Update, April 2025 Weltbank, 2025 Growth prospects for South Asia have dimmed The global economic environment has become more challenging and is a source of heightened downside risks After a decade of repeated disruptions South Asia's buffers to cushion new shocks are slim Tackling some of its greatest inefficiencies and vulnerabilities could help South Asia navigate this unusually uncertain outlook unproductive agricultural sectors dependence on energy imports pressures from rising global temperatures and fragile fiscal positions For most South Asian countries increased revenue mobilization is a prerequisite for strengthening fiscal positions Even taking into account the particular challenges of collecting taxes in South Asian economies such as widespread informal economic activity and large agriculture sectors South Asian economies face larger tax gaps than the average emerging market and developing economy EMDE This suggests the need for improved tax policy and administration Until fiscal positions have strengthened the burden of climate adaptation will disproportionately fall on the private sector If allowed sufficient flexibility private sector adaptation could offset about one third of the likely climate damage by 2050 This may however require governments to remove obstacles that prevent workers and firms from moving across locations and activities As growth prospects dim the challenge grows to create jobs for South Asia's rapidly expanding working age population South Asia's large diasporas could become a source of strength if their knowledge networks and other resources can be better tapped for investment and trade
