Celebrating Seafood

Every May, a festival of fun, food, art and history comes to the Norfolk towns of Cromer and Sheringham: The Crab and Lobster Festival. It's an exciting weekend of cookery competitions, food tasting, live music and, above all, crabs and lobsters. You could even win a giant painted crab or lobster!

At the festival, you have the chance to eat crabs and lobsters from any of the restaurants nearby and also learn how to cook them yourself. The festival has a large cookery theatre where you can watch chefs prepare and cook delicious seafood. In addition, for those who prefer to find their own crabs, there is the crabbing competition. The team which gets the most crabs wins!

The festival is not just about seafood. It also celebrates the history of fishing and the environment. Local fishermen come to the festival every year to share the art of fishing with tourists. Finally, many scientists also come to the festival. They give details about how we can take better care of the local environment so that everyone can enjoy it for years to come. Organised by local volunteers, the Crab and Lobster Festival is a fun celebration of the sea that raises money for charity and attracts thousands of tourists to the beautiful Norfolk coast.

The Life and Legacy of Constantine M. Shane Bjornlie, 2016-07-15 The transformation from the classical period to the medieval has long been associated with the rise of Christianity This association has deeply influenced the way that modern audiences imagine the separation of the classical world from its medieval and early modern successors The role played in this transformation by Constantine as the first Christian ruler of the Roman Empire has also profoundly shaped the manner in which we frame Late Antiquity and successive periods as distinctively Christian The modern demarcation of the post classical period is often inseparable from the reign of Constantine The attention given to Constantine as a liminal figure in this historical transformation is understandable Constantine's support of Christianity provided the religion with unprecedented public respectability and public expressions of that support opened previously unimagined channels of social political and economic influence to Christians and non Christians alike The exact nature of Constantine's involvement or intervention has

been the subject of continuous and densely argued debate Interpretations of the motives and sincerity of his conversion to Christianity have characterized with various results explanations of everything from the religious culture of the late Roman state to the dynamics of ecclesiastical politics What receives less frequent attention is the fact that our modern appreciation of Constantine as a pivotal historical figure is itself a direct result of the manner in which Constantine s memory was constructed by the human imagination over the course of centuries This volume offers a series of snapshots of moments in that process from the fourth to the sixteenth century
