

IMMORTAL

Prior to Kuv's fall, protoss warriors who were previously wounded in battle could volunteer to extend their military service by sealing their disfigured bodies into dragon exoskeletons. With the zerg invasion, the technology for making dragons—including the cybernetic intricacies of this transplant process—was lost. All surviving dragons were refitted with enhanced servo mechanics, hardened energy shields, and twin phase disruptors. The updated unit was christened the "Immortal."

As a result, Immortals house some of the most skilled and venerable warriors in the protoss military, operating some of the most advanced hardware.
