Thomas H. Bestul

Swedish Passions English Edition:

The Passion of Ingmar Bergman Frank Gado,1986 Acknowledged as one of the greatest filmmakers of this or any other time Bergman has with few exceptions written his own screenplays an uncommon practice in the film industry and for this practice critics refer to him as a literary filmmaker In this work Gado examines virtually the entire range of Bergman s literary output While treating the matter of the visual presentation of Bergman s films Gado concentrates on story and narrative and their relationship to Bergman s personal history Gado concludes that whatever the outward appearance of Bergman s works they contain an elementary psychic fantasy that links them all revealing an artist who hoped to be a dramatist the new Strindberg and who saw the camera as an extension of his pen Texts of the Passion Thomas H. Bestul,2015-08-05 In this book Thomas H Bestul constructs the literary history of the Latin Passion narratives placing them within their social cultural and historical contexts He examines the ways in which the Passion is narrated and renarrated in devotional treatises paying particular attention to the modifications and enlargements of the narrative of the Passion as it is presented in the canonical gospels Of particular interest to Bestul are the representations of Jews women and the body of the crucified Christ Bestul argues that the greatly enlarged role of the Jews in the Passion narratives of the twelfth and thirteenth centuries is connected to the rising anti Judaism of the period He explores how the representations of women particularly the Virgin Mary express cultural values about the place of women in late medieval society and reveal an increased interest in female subjectivity **Two Planks and a Passion** Roland Huntford,2013-01-31 Predating the wheel the ski has played an important role in our history This is brilliantly brought to life in this engaging book Roland Huntford s history begins 20 000 years ago in the last ice age on the icy tundra of an unformed earth Man is a travelling animal and on these icy slopes skiing began as a means of survival That it has developed into the leisure and sporting pursuit of choice by so much of the globe bears testament to its elemental appeal In polar exploration it has changed the course of history Elsewhere in war and peace it has done so too The origins of skiing are bound up in with the emergence of modern man and the world we live in today Passion and Paranoia Charlotte Bloch,2016-05-13 Analysing emotions and emotion management in the academic organization Passion and Paranoia shows how focusing on emotions in organizations can offer insights into important aspects and the dynamics of organizational processes Drawing on rich interview material this book demonstrates the often overlooked importance of emotions in academic life to reveal the manner in which emotion contributes to social bonds power relationships and hierarchies micro politics and processes of inclusion and exclusion from an academic career A significant contribution to the study of emotion and the academy Passion and Paranoia will appeal to sociologists and anthropologists researching work and organizations emotion academic culture and social relationships **Power, Passion, and Faith** Sharon M. Wyman,2022-03-01 It is the morning of July 1 1938 and New York City is just beginning to stir For Emmy Evald it is a day of reckoning Born the daughter of a pioneer preacher in 1857 in Geneva Illinois

Emmy Evald grew up in the poor section of Chicago known as Swede Town. Despite her humble beginnings she became one of the most influential and remarkable Swedish American women of her day. Emmy began challenging the male dominated church and social mores early on. Clear in her vision she established the Lutheran Woman's Missionary Society in 1892 raising more than 3 million which provided health care and education to women worldwide. A distinguished orator Emmy led the charge on behalf of women's suffrage and marched with Susan B. Anthony to the US Congress in 1902. Her actions met with both victory and defeat. Some women felt a woman's place was in the home and resented her. Men tried to silence her spirit. But she was a force to be reckoned with one who never gave up on the fight for women's rights and social justice.

Notes Music Library Association, 1964 *The Cultural Heritage of Medieval Rituals* Eyolf Østrem, 2005. The concepts of genre and ritual are central for the overall occupation with the relationship between the History of the Arts and the History of Christianity in Western Culture. The present volume was planned on the basis of the first annual international conferences at the Centre for the Study of the Cultural Heritage of Medieval Rituals, University of Copenhagen, a collection of 15 essays with a wide range of topics both in terms of chronology and subject matter written. Marinos, 2023-04-12. *Expanding Underground: Knowledge and Passion to Make a Positive Impact on the World* contains the contributions presented at the ITA AITES World Tunnel Congress 2023, Athens, Greece, 12-18 May 2023. Tunnels and underground space are a predominant engineering practice that can provide sustainable, cost-efficient and environmentally friendly solutions to the ever-growing needs of modern societies. This underground expansion in more diverse and challenging infrastructure types or to novel underground uses can foster the changes needed. At the same time, the tunneling and underground space community needs to be better prepared and equipped with knowledge, tools and experience to deal with the prevailing conditions to successfully challenge and overcome adversities on this path. The papers in this book aim at contributing to the analysis of challenging conditions, the presentation and dissemination of good practices, the introduction of new concepts, new tools and innovative elements that can help engineers and all stakeholders to reach their end goals. *Expanding Underground: Knowledge and Passion to Make a Positive Impact on the World* covers a wide range of aspects and topics related to the whole chain of the construction and operation of underground structures: Knowledge and Passion to Expand Underground for Sustainability and Resilience; Geological/Geotechnical Site Investigation and Ground Characterization; Planning and Designing of Tunnels and Underground Structures; Mechanised Tunneling and Microtunneling; Conventional Tunneling; Drill and Blast Applications.

The Genres of Thomson's The Seasons Sandro Jung,Kwinten Van De Walle,2018-09-01 Critics since the eighteenth century have puzzled over the form of James Thomson s composite long poem *The Seasons* 1730 1744 1746 its generically hybrid make up and its relationship to established genres both Classical and modern The textual condition of the work is complicated by the fact that it started as a stand alone poem *Winter* 1726 but was subsequently expanded as part of a revision process that lasted almost two decades through the addition of three further seasons poems Transforming from primarily devotional poem to georgic account of the role of man s laboring role in the creation the meaning of *The Seasons* shifted with each addition of new material Each revision introduced diverse subject matter while existing material was reorganized and occasionally moved from one season installment to another

The Genres of Thomson's The Seasons is the first collection of essays exclusively devoted to the study of the work s formal heterogeneity polyvocality and polygeneric character All contributions examine the different modes descriptive reflective pastoral hymnal amatory epic georgic dramatic discourses political sentimental scientific and kinds that cooperate to make up the different installments

and variants of *The Seasons* They probe the multifarious interactions between different genres and modes and how a renewed focus on the form of Thomson's long poem will result in an understanding of the processual character of *The Seasons* as a synthesizing simulacrum of various discourses and theories of composition The volume's essays map the generic anatomy of the poem in its different incarnations They shed light on the poet's conception of the descriptive long poem and his engaging with formal traditions that would have enabled contemporaneous readers to conceive of *The Seasons* as an assimilating and learned work to be read through both the works of the Classics and moderns Contributions revisit models explaining the structural complexity of *The Seasons* proposing others in their stead and consider Thomson as the author of a long poem in relation to other poets both English and in a transnational study Swedish The poem is furthermore contextualized in terms of sexuality and animal studies *Theological Monthly* ,1922
