Evolution of Supply Chain Management Yoon Seok Chang,Harris C. Makatsoris,Howard D. Richards,2004-03-31 In the last half of the twentieth century industry encountered a revolutionary change brought about by the harnessed power of seemingly ever increasing capacity speed and functionality of computers and microprocessors This strength provided management and workers within industries with new capabilities for management planning and control design quality assurance and customer support Organized information flow became the mainstay of industrial companies New tools and information technology systems emerged and evolved to enable companies to integrate the various departments Design Procurement Manufacturing Sales and Finance within companies particularly the larger ones including international corporations This was to give them a chance to meet new demands for product time to market just in time supply of orders and customer support To the smaller company these changes were not so apparent Neither the tools nor systems nor indeed their economic value seemed appropriate to them except for special cases While all this was happening the structure of the larger companies began to disintegrate Strong competitive pressures and globalization of the market place brought this about Shedding unwanted competence and subcontracting it to others became common practice Regional market pressures triggered companies to reorganize to create produce and distribute goods and services Greater dependency on chains of supply from external companies became the norm Medium and smaller sized companies began to gain some advantage and at the same time some were sucked into management and control systems governed by the larger companies

Maintenance Productivity Practices Frank W. Venezia,2004 This synthesis will be of interest to transit agency staff responsible for vehicle maintenance and planning at their agencies Staff can use this report to learn from the experiences of other agencies as well as to compare their experiences with those of other agencies It documents and summarizes transit agency experiences using various maintenance productivity improvements and programming The report summarizes the experiences of agencies that vary in size union affiliation and operating conditions It provides descriptions of successful programs and creative modifications to existing programs **Manual for Overhaul, Repair and Handling of Sextant and Fiske Type Stadimeters with Parts Catalog** United States.
