The end product is a collection of twenty eight chapters illustrating a truly comparative and interdisciplinary European criminology. The editors have assembled a cast of leading voices to reflect on differences and commonalities, elaborate on theoretically grounded comparisons and reflect on emerging themes in criminology in Europe. After the editors' introduction, the book is organised in three parts: five chapters offering historical, theoretical and policy oriented overviews of European issues in crime and crime control; seven chapters looking at different dimensions of crime in Europe including crime trends, state crime, gender and crime, and urban safety; fifteen chapters examining the variety of institutional responses exploring issues such as policing, juvenile justice, punishment, green crime and the role of the victim. This book gives some indication of the richness and scope of the emerging comparative European criminology and will be required reading for anyone who wants to understand trends in crime and its control across Europe. It will also be a valuable teaching resource especially at postgraduate level as well as an important reference point for researchers and scholars of criminology across Europe.

The Routledge International Handbook of Criminology and Human Rights Leanne Weber, Elaine Fishwick, Marinella Marmo, 2016-08-25. The Routledge International Handbook of Criminology and Human Rights brings together a diverse body of work from around the globe and across a wide range of criminological topics and perspectives united by its critical application of human rights law and principles. This collection explores the interdisciplinary reach of criminology and is the first of its kind to link criminology and human rights. This text is divided into six sections each with an introduction and an overview provided by one of the editors. The opening section makes an assessment of the current standing of human rights within the discipline. Each of the remaining sections corresponds to a substantive area of harm prevention and social control which together make up the main core of contemporary criminology: namely criminal law in practice, transitional justice, peacemaking and community safety, policing in all its guises, traditional and emerging approaches to criminal justice and penalty both within and beyond the prison. This Handbook forms an authoritative foundation on which future teaching and research about human rights and criminology can be built. This multi disciplinary text is an essential companion for criminologists, sociologists, legal scholars and political scientists. *Re-mapping the Americas* W. Andy Knight, Julián Castro-Rea, 2016-04-01. Since the end of the Second World War the map of the Americas has changed dramatically. Not only were many former European colonies turned into sovereign states, there was also an ongoing process of region making recognizable throughout the hemisphere and obvious through the establishment of several regional agreements. The emergence of political and economic regional integration blocs is a very timely topic analyzed by scholars in many disciplines worldwide. This book looks at remapping the recent trends in region making throughout the Americas in a way that hasn't been at the center of academic analyses so far. While examining these regionalisation tendencies with a historical background in mind, the authors also answer fundamental questions such as: What influences does globalization have on region making both on normative regionalism plans as well as on actual economic, political, cultural, military and

social regionalization processes driven by state and non state actors What ideas or interests lead states in the Americas to cooperate or compete with one another and how is this power distributed How do these regional agreements affect trade relations and have there been trade barriers set up to protect national economies What agreements exist or have existed and how did they change with regard to contents and for what reason The book informs academic as well as non academic audiences about regional developments in the Americas in particular those dating back to the last twenty years Beyond the primary purpose of summarizing the hemisphere s recent trends the book also brings clarification in a detailed but easy to understand way about timely issues regarding the institutionalisation or lack thereof of the plethora of regional and sub regional bodies that have emerged in this hemisphere over the past couple of decades *The Routledge Handbook of Irish Criminology* Deirdre Healy, Claire Hamilton, Yvonne Daly, Michelle Butler, 2015-12-14 The Routledge Handbook of Irish Criminology is the first edited collection of its kind to bring together the work of leading Irish criminologists in a single volume While Irish criminology can be characterised as a nascent but dynamic discipline it has much to offer the Irish and international reader due to the unique historical cultural political social and economic arrangements that exist on the island of Ireland The Handbook consists of 30 chapters which offer original comprehensive and critical reviews of theory research policy and practice in a wide range of subject areas The chapters are divided into four thematic sections Understanding crime examines specific offence types including homicide gangland crime and white collar crime and the theoretical perspectives used to explain them Responding to crime explores criminal justice responses to crime including crime prevention restorative justice approaches to policing and trial as well as post conviction issues such as imprisonment community sanctions and rehabilitation Contexts of crime investigates the social political and cultural contexts of the policymaking process including media representations politics the role of the victim and the impact of gender Emerging ideas focuses on innovative ideas that prompt a reconsideration of received wisdom on particular topics including sexual violence and ethnicity Charting the key contours of the criminological enterprise on the island of Ireland and placing the Irish material in the context of the wider European and international literature this book is essential reading for those involved in the study of Irish criminology and international and comparative criminal justice *The Georgian Regime Crisis of 2003-2004* Rebecca S.
