Swat Chronicles Book 2 One Tough Cop:

One Tough Cop Dahlia Rose, Maxwell Kincaid had worked in the NYPD long enough that most things didn't surprise him anymore. The detective who preferred to work alone admitted to himself long ago that he was jaded. So when he was called out to a hostage situation at a women's shelter in the middle of the night it was another job that kept him out of his warm bed. He heard the sobs behind the maniacal screaming of the hostage taker and the woman begging for help pleading for the life of her unborn child that fell on deaf ears. This struck a chord in him and Max was determined to save everyone to save her. In the midst of the chaos after storming the house Max delivered the baby of Nicole Henry. From the time he looked into Nicole's eyes and the face of the newborn something shifted in his life. He wanted to show her that every man wasn't cruel and used their hands to abuse. Max was never one to believe in love at first sight but the feeling hit him like a lightning bolt. Nicole and the baby needed tender loving care and he was the man to give them the love they needed. Wright, Peter Henry Rossi, Kathleen Daly, In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important questions have not been adequately researched and some of them have not been examined at all Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position As a consequence the manifest intent of many studies is to persuade rather than to inform We have tried to approach the topic from a purely agnostic point of view treating as an open question what policies should be enacted with regard to gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide Under the Gun Peter H. Rossi, 2017-09-29 In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important

questions have not been adequately researched and some of them have not been examined at all. Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position. As a consequence, the manifest intent of many studies is to persuade rather than to inform. We have tried to approach the topic from a purely agnostic point of view, treating as an open question what policies should be enacted with regard to gun or crime control. Thus, we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction. It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study. Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide.
