respond to privilege with generosity humility and hope It opens us to questions we are afraid to ask so that we can walk further from fear and closer to love in all its fragile and mysterious possibilities **To Be Made Well** Amy Julia Becker,2022-03-15 How can we be made well From hurting bodies and souls to hurting relationships and communities it s clear that things are not as they should be Some of us live with varying degrees of physical pain and others of us harbor the emotional pain of loneliness shame and guilt Looking at our culture more broadly we see the harm of our social divisions and the unyielding reality and impact of injustice and inequity The gospels brim with stories of Jesus healing people but what does that mean for us today In *To Be Made Well* author Amy Julia Becker weaves together her own story with reflections on biblical accounts of Jesus healing work providing fresh insight into both the nature of healing and the pathway to healing then and now This book is a powerful invitation to personal spiritual and social healing as we reconnect to our bodies and souls to God and to our communities For anyone struggling with pain or loss for anyone concerned about the things that divide us this book goes beyond wellness and beyond miraculous physical transformations to explore how we can personally and collectively be made well *Straight Talking* Linda Blair,2009-07-16 Levels of anxiety and depression are on the rise If you have ever felt overwhelmed by the pressures of modern living yet unsure about how to regain control of your own life direction then this is the book for you Based on more than 25 years of clinical experience Linda Blair offers numerous practical suggestions to help you overcome problems such as anxiety insomnia negative thinking a loss of contentment an unhappy past and a tendency to relapse into unconstructive habits She explains clearly how you can create your own treatment manual and she uses case studies to guide you on your way This is a book that will encourage you to think more positively whatever problems you face and enable you to start managing your life more effectively *Talking Back To Ritalin* Peter Breggin,2007-10-10 Millions of children take Ritalin for Attention Deficit Hyperactivity Disorder The drug s manufacturer Novartis claims that Ritalin is the solution to this widespread problem But hidden behind the well oiled public relations machine is a potentially devastating reality children are being given a drug that can cause the same bad effects as amphetamine and cocaine including behavioral disorders growth suppression neurological tics agitation addiction and psychosis *Talking Back to Ritalin* uncovers these and other startling facts and translates the research findings for parents and doctors alike An advocate for education not medication Dr Breggin empowers parents to channel distracted disenchanted and energetic children into powerful confident and brilliant members of the family and society **Strengths Based Parenting** Mary Reckmeyer,Jennifer Robison,2016-02-02 *Strengths Based Parenting* doesn t prescribe one right way to parent Instead author Mary Reckmeyer empowers parents to embrace their individual parenting style by discovering and developing their own and their children s talents and strengths With real life stories practical advice backed by Gallup data and access to the Clifton StrengthsFinder and Clifton Youth StrengthsExplorer assessments *Strengths Based Parenting* builds the foundation for positive parenting *Strengths Based Parenting* is grounded in decades of Gallup research on

strengths psychology including assessments of nearly 1 million young people and highlighted in Gallup's national bestseller *StrengthsFinder 2.0*. More than 14 million people have taken the Clifton StrengthsFinder assessment to discover their unique combination of talents and strengths. Gallup knows that focusing on talents and strengths can improve the quality of people's lives. Now in *Strengths Based Parenting*, Gallup extends strengths psychology to the most important operating system in the world: the family. How can you discover your children's unique talents? And how can you use your own talents and strengths to be the most effective and supportive parent possible? *Strengths Based Parenting* addresses these and other questions on parents' minds. But unlike many parenting books, *Strengths Based Parenting* focuses on identifying and understanding what your children are naturally good at and where they thrive, not on their weaknesses. The book also helps you uncover your own innate talents and effectively apply them to your individual parenting style. Raising a child truly takes a village. *Strengths Based Parenting* can help parents learn how to partner with teachers, coaches, and other adults in their kids' lives to create a positive, supportive environment to develop their talents into strengths and instill confidence.

move from the classroom to the main office organize the office meet staff tour the building write a newsletter examine data and visit community venues Nothing in this conversation described strategies for redefining the beliefs and values of an entrenched school culture With this conversation in mind I made it a point in my formal and informal contacts with school administrators to always ask the question What would you do in the first day in your new office to change your school s culture The most common responses involved reviewing district documents touring facilities meeting staff listening to stakeholders and managing systems In each conversation school leaders populated their responses with the current jargon of school reform learning communities data mining standards based curriculum differentiated learning common core standards formative assessment race to the top continuous improvement etc While these responses encompass reasonable behaviors on the first day in the main office not one of these actions possesses the capacity to connect educational values expressed in school mission statements why are we here to daily organizational and instructional routines Each activity gives the appearance of leading but produces no connections between beliefs values and practices Although none of these responses would make or break a school culture they do represent a pattern of thinking and behaving that holds out little possibility of fundamentally changing a school s culture
