Smiljan Radić Smiljan Radic, Jochen Volz, Emma Enderby, 2014 Pavilions, Pop Ups and Parasols Leon van Schaik, Fleur Watson, 2015-06-02 Around the world a new architectural form is emerging In public places a progressive architecture is being commissioned to promote open ended undetermined lightly programmed or unprogrammed interactions between people This new phenomenon of architectural form Pavilions Pop Ups and Parasols is presaged by rapidly changing social relationships flowing from social media such as Facebook Twitter and Instagram The nexus between real and virtual meeting is effectively being reinvented by innovative and creative architectural practices People meet in new and responsive ways architects meet their clients in new forums knowledge is met and achieved in new and interactive frameworks It contrasts bluntly with the commercially structured interactions of shopping malls and the increasingly deliberate interactions available in cultural institutions These experiences imbue a new type of client casually engaged flocking hacking crowd funding and self helping Contributors include Rob Bevan Pia Ednie Brown Roan Ching Yueh Dan Hill Martyn Hook Minsuk Cho Andrea Kahn Felicity Scott Akira Suzuki Contributing architects include Alisa Andrasek Biothing Peter Cook CRAB studio CJ Lim Studio 8 Tom Holbrook 5th Studio Matthias Hollwich HWKN Mamou Mani Architects Benedetta Tagliabue EMBT *The Ten Most Influential Buildings in History* Simon Unwin, 2016-07-07 Even the most inventive and revolutionary architects of today owe debts to the past often to the distant past when architecture really was being invented for the first time Architects depend on their own imaginations for personal insights and originality but their ideas may be stimulated consciously or subliminally by particularly powerful buildings from history The Ten Most Influential Buildings in History Architecture s Archetypes identifies ten architectural archetypes that have been sources of inspiration for architects through the centuries Each archetype is analysed through distinctive examples following the methodology established by the author in his previous books The variety of lines of enquiry each archetype has provoked in latter day architects are then explored by analysing their work to reveal ideas inspired by those earlier buildings Archetypes have a timeless relevance In adopting this approach The Ten Most Influential Buildings in History is as pertinent to contemporary practice as it is to understanding buildings from antiquity and offers insights into the bridges of influence that can operate between the two The Mannerist Phase in Architecture Lina Malfona, 2025-05-02 This book frames mannerism as an inescapable stage in the creative process The mannerist phase is usually an adolescent stage of language preceding the consolidation of thought It is that period as fertile as it is anguished in which each author engages in a dialogue with his or her past reinterpreting or completely transforming it The mannerist phase is that period when architects design spaces not yet knowing what it means to design places The mannerist condition can be short lived or protracted until it becomes systemic In all cases it is a period of research experienced by architects who are also intellectuals that is architects who operate between the practice of making and the elaboration of a personal design philosophy within a perspective in which history theory and criticism are intertwined In this

sense the mannerist condition can also be defined as the style of the academic thought The book explores the work of many authors analyzing their relationship to history and how they managed to emerge from its shadow Of interest to academics scholars and students exploring the theory of architecture this book offers an unconventional transtemporal reading of mannerism where facts events and images belonging to different times and spaces are juxtaposed to generate a series of temporal paradoxes *Smiljan Radic. Archetipi fragili* Andrea Ambroso,2022-03-25 I progetti di Radi presentano l'intrecciarsi di pensieri immagini storie e tradizioni che danno vita a un racconto a tratti autobiografico a una trama fatta di ricerche di origini di archetipi e riproposizioni radicali che restituiscono un linguaggio unico dettato da una fragile e continua sperimentazione nel traslare e rovesciare i concetti abituali e quotidiani che Radi innesta una nuova dialettica tra tradizione e innovazione Questo operare comporta una continua alterazione e un continuo porsi in contraddizione con i luoghi con cui le opere si trovano a interagire Le architetture diventano dispositivi in grado di ricercare tensione non solo strutturale e materiale ma sovrastrutturale legata alle dicotomie tradizione innovazione memoria immaginazione divenire attesa

Tradizione e Innovazione AA.VV., 2023-10-24. Nel primo decennio di questo secolo il Piemonte grazie ad un'eccellente legge regionale ha rappresentato un'eccezione nel panorama italiano per il sostegno economico dato alle piccole realtà culturali locali. In seguito la legge è stata modificata nella modalità della rendicontazione così da rendere impossibile alle piccole associazioni di accedere ai contributi determinando la morte di un tessuto culturale ricco di idee stimoli eventi e progetti. In questi anni grigi è diventato impossibile realizzare qualsiasi tipo di progetto culturale per la difficoltà di ottenere finanziamenti pubblici o privati per manifesta disinteresse. Questo volume della Collana si propone come un manifesto di riflessione. Le retoriche del patrimonio scrive Tomaso Montanari si sprecano e tutti in Italia invocano politiche del turismo cultura e sviluppo.
