Spoken Language Pragmatics Analysis Of Form Function Relations:

Spoken Language Pragmatics Regina Weinert, 2007-09-26 This volume provides a detailed analysis of the relationships between form and function in spontaneous spoken language. The contributors analyse English, German and Spanish data to present a multilingual perspective on the complexities facing speakers in a variety of contexts. Through an examination of everyday language, it is shown how speakers position themselves in relation to their discourse. **Spoken Language**

Pragmatics Regina Weinert, 2007-07-26 This volume provides a detailed analysis of the relationships between form and function in spontaneous spoken language. The contributors analyse English, German and Spanish data to present a multilingual perspective on the complexities facing speakers in a variety of contexts. Through an examination of the language of everyday conversation, interviews, consultations, task-based dialogues, football commentaries, radio play productions and intercultural conversations, the book demonstrates the effect of informational discourse, external and personal factors on form and shows how speakers position themselves in relation to their discourse, orchestrate different tasks, move between different voices and negotiate meaning. The result is a comprehensive analysis of the multiple layers of spontaneous spoken language. *Spoken Language Pragmatics* presents research that will be of interest to academics working in linguistics, applied linguistics, discourse analysis and pragmatics. Perspectives on Formulaic Language David Wood, 2011-11-03

Formulaic sequences are more or less fixed word combinations such as idioms, collocations, lexical bundles, phrasal verbs and so on. Study in this area has grown over the past fifteen years despite the fact that there are no academic journals or conferences devoted to this topic. This edited collection is an attempt to draw together the diverse international work on formulaic language. It features an introduction by Dr Regina Weinert, a pioneer and expert in the study of formulaic language in acquisition. The authors have an international scope from China and Italy to Armenia, Canada and Britain. The book is divided into three sections: Formulaic Language in Acquisition and Pedagogy; Identification and Psycholinguistic Processing of Formulaic Language; Communicative Functions of Formulaic Language. The topics of the papers are as varied as the geographic locations of the authors: critical discourse analysis, psycholinguistics, memorization, corpus analysis, specific languages such as Arabic and even Beowulf and blogging language. This volume represents a step forward for the study of formulaic language, offering diverse, often previously unexplored perspectives from international researchers advancing knowledge in innovative ways. It makes a fresh contribution to the growing number of works on this topic and will appeal to researchers and academics working with formulaic language throughout linguistics. **Contemporary Approaches to Second Language Acquisition** María del Pilar García Mayo, María Junkal Gutierrez Mangado, Maria Martinez Adrian, 2013

Second language acquisition (SLA) is a field of inquiry that has increased in importance since the 1960s. Currently, researchers adopt multiple perspectives in the analysis of learner language, all of them providing different but complementary answers to the understanding of oral and written data produced by young and older learners in different settings. The main goal of this volume is to provide the reader with updated reviews

of the major contemporary approaches to SLA the research carried out within them and wherever appropriate the implications and or applications for theory research and pedagogy that might derive from the available empirical evidence The book is intended for SLA researchers as well as for graduate MA Ph D students in SLA research applied linguistics and linguistics as the different chapters will be a guide in their research within the approaches presented The volume will also be of interest to professionals from other fields interested in the SLA process and the different explanations that have been put forward to account for it

Spontaneous Spoken Language J. E. Miller, Regina Weinert, 1998 Jim Miller and Regina Weinert investigate syntactic structure and the organization of discourse in spontaneous spoken language Using data from English German and Russian they develop a systematic analysis of spoken English and highlight properties that hold across languages The authors argue that the differences in syntax and the construction of discourse between spontaneous speech and written language bear on various areas of linguistic theory apart from having obvious implications for syntactic analysis In particular they bear on typology Chomskyan theories of first language acquisition and the perennial problem of language in education In current typological practice written and spontaneous spoken texts are often compared the authors show convincingly that typological research should compare like with like The consequences for Chomskyan and indeed all theories of first language acquisition flow from the central fact that children acquire spoken language but learn written language

Comparative Perspectives on Language Acquisition Marzena Watorek, Sandra Benazzo, Maya Hickmann, 2012-01-09 This volume aims to provide a broad view of second language acquisition within a comparative perspective that addresses results concerning adult and child learners across a variety of source and target languages It brings together contributions at the forefront of language acquisition research that consider a wide range of open questions What are the precise mechanisms underlying acquisition How can we characterize learners initial state and predict their degree of final achievement What role do specific typological properties of source and target languages play How does

fossilization occur How does the relative complexity of cognitive systems in adult and child learners affect acquisition Does language learning influence cognitive organization Can language learning shed light on our general understanding of human language and language processing *Metaphor in Specialist Discourse* J. Berenike Herrmann, Tony Berber

Sardinha, 2015-12-15 *Metaphor in Specialist Discourse* presents multiple perspectives on metaphor use in specialist and popularized discourse contexts Using genre and register as starting parameters for deeper exploration and pushing the boundaries further to open up new areas and possibilities ten independent articles investigate metaphor use across a range of specialist domains of discourse such as biology research articles psychological counseling soccer commentaries workfloor communication and penal policy documents Framed by two theoretical chapters the book is a contribution to the study of metaphor use in distinct discourse settings that will be of value to linguists and metaphor scholars of different persuasions graduate students of linguistics and related disciplines and practitioners of specialized areas with an interest in verbal or gestural language use in their areas of expertise It shows that aspects of discourse variation are the beginning of not an afterthought to accurate empirical metaphor studies **Inclusion and Diversity** Santoshi Halder, Garry Squires, 2023-03-24

disability studies educational psychology social work sociology and anthropology It will also be useful for teacher training course and anyone who is associated with or working in the field of diversity and inclusion *Demonstratives in discourse* Åshild Næss, Anna Margetts, Yvonne Treis, 2020-10-27 This volume explores the use of demonstratives in the structuring and management of discourse and their role as engagement expressions from a crosslinguistic perspective It seeks to establish which types of discourse related functions are commonly encoded by demonstratives beyond the well established reference tracking and deictic uses and also investigates which members of demonstrative paradigms typically take on certain functions Moreover it looks at the roles of non deictic demonstratives that is members of the paradigm which are dedicated e

g to contrastive recognitional or anaphoric functions and do not express deictic distinctions Several of the studies also focus on manner demonstratives which have been little studied from a crosslinguistic perspective The volume thus broadens the scope of investigation of demonstratives to look at how their core functions interact with a wider range of discourse functions in a number of different languages The volume covers languages from a range of geographical locations and language families including Cushitic and Mande languages in Africa Oceanic and Papuan languages in the Pacific region Algonquian and Guaykuruan in the Americas and Germanic Slavic and Finno Ugric languages in the Eurasian region It also includes two papers taking a broader typological approach to specific discourse functions of demonstratives

Linguistic

Superdiversity in Urban Areas Joana Duarte, Ingrid Gogolin, 2013-12-18 Rapidly increasing migration flows contribute to the development of multiple forms of social and cultural differentiation in urban areas or to super diversity Language diversity is an important part of the resulting new social and cultural constellations Although linguistic diversity is not a new phenomenon per se the response of individuals or education systems to it is still largely based on a monolingual habitus associating one nation or a region within a nation to one language Building on the top quality expertise of researchers from different academic fields the volume offers insights into the study of linguistic diversity from linguistic and education science perspectives The studies derive from different countries different disciplines different research traditions and methodological approaches all aiming towards a better understanding of actual linguistic reality and its consequences for individual language development and for education The book addresses an academic readership and experts who are interested in learning more about linguistic diversity as an inevitable effect of globalisation and on ways to deal with this reality in research as well as practise in urban areas
