Merchant Vessels of the United States ,1989 **The Palm Springs School: Desert Modernism 1934-1975** Alan Hess, 2025-02-11 Palm Springs is at the center of a unique tradition in architecture marked by invention and a sensitivity to local conditions that has resulted in design that exerts an influence far greater than the town s small size The book is the first to fully explore the wide ranging forms this architecture has taken from houses to gas stations hotels to airports banks to restaurants and spas Much more than a resort destination Palm Springs has served as a laboratory of the Modern here so much architectural innovation and design took form From the steel and glass boxes of Richard Neutra to the earthy organic homes of John Lautner and everything in between the solutions of architects and designers including notably William F Cody E Stewart Williams and Albert Frey were diverse and are ever more relevant in the face of contemporary challenges Their answers addressed questions that still hold urgency How to design sustainably in harsh climates How to use technology efficiently and creatively to meet those challenges How to build affordable and high quality mass produced housing How to reflect a region s culture economy and distinctive atmosphere Architects here responded to nature s climatological demands and Palm Springs became a center for innovations that were rooted in practice more than theory Benefitting from the architectural freedoms offered by the remoteness of the California desert designers explored new approaches that we can now identify as central to the Palm Springs School shown here in rich archival and contemporary photography Chain of Title David Dayen, 2016-05-17 In the depths of the Great Recession a cancer nurse a car dealership worker and an insurance fraud specialist helped uncover the largest consumer crime in American history a scandal that implicated dozens of major executives on Wall Street They called it foreclosure fraud millions of families were kicked out of their homes based on false evidence by mortgage companies that had no legal right to foreclose Lisa Epstein Michael Redman and Lynn Szymoniak did not work in government or law enforcement They had no history of anticorporate activism Instead they were all foreclosure victims and while struggling with their shame and isolation they committed a revolutionary act closely reading their mortgage documents discovering the deceit behind them and building a movement to expose it Fiscal Times columnist David Dayen recounts how these ordinary Floridians challenged the most powerful institutions in America armed only with the truth and for a brief moment they brought the corrupt financial industry to its knees **The American Pressman** ,1926

Invisible Trillions Raymond W. Baker, 2023-01-31 Essential reading for anyone truly interested in saving democracy from the predations of kleptocracy and plutocracy Charles Davidson *The Journal of Democracy* This book expands our

understanding of the financial secrecy system dominating capitalism today and shows how we can create accountability to restore our democracy Over the last half century capitalism has created the means for trillions of dollars euros pounds and other stores of wealth to move invisibly beyond the control of central bankers law enforcement agents and international institutions With an entire financial secrecy system now dominating capitalist operations riches flow inexorably upward and accelerate economic inequality And rising inequality is directly imperiling weakening obstructing and degrading democracy This book is not a screed against capitalism it is a call for capitalism to return to its roots reenergizing its synergies with democracy Raymond Baker writes Democratic capitalism is in my judgment the best system yet devised in political economy but dysfunctions within its capitalist component are undermining the two part system Baker explains the tax havens secrecy jurisdictions disguised corporations anonymous trusts fake foundations regulatory loopholes money laundering techniques and more that make up the financial secrecy system But he goes beyond the what to the why examining the motivations driving the system that generates and shelters trillions of dollars that could go toward spreading wealth generating public goods and protecting the environment Going deeper Baker illustrates how these realities further corrode the commonwealth with chapters devoted to the facilitating activities and impacts of banks corporations enabling lawyers and accountants governments and international institutions and concluding with the limiting role played in policy silos that are missing the bigger picture Finally he provides specific pragmatic measures to reset capitalism so that it once again contributes to shared prosperity and sustained democracy This is a magisterial treatment of an issue that is at the root of so many problems that plague our nation and the world today **Encyclopedia of Associations** ,1992 *The 1961-1970: American Film Institute Catalog of Motion Pictures Produced in the United States* American Film Institute,1997 Back in print after more than fifteen years this American Film Institute Catalog covers the decade of the sixties This was the era in which films began to challenge the taboos on sex and violence and treated social issues in a new light Included in this volume are *The Wild Bunch* *Bonnie and Clyde* *Guess Who's Coming to Dinner* and *Who's Afraid of Virginia Woolf* The decade also produced such all time classics as *The Sound of Music* *To Kill a Mockingbird* and *The Graduate* [Contemporary Architects](#) Muriel Emanuel,2016-01-23
