British Waterways Great Britain. Parliament. House of Commons. Environment, Food and Rural Affairs Committee, 2008 In its 7th report of session 2006 07 HC 345 I ISBN 9780215521330 on British Waterways BW the Committee pressed for adequate funding of the waterways network and expressed concern at the poor relations that existed at the time between the Department for Environment Food and Rural Affairs Defra and BW This further report was prompted by BW s decision in February 2008 to withdraw from the partnership to restore the Cotswold Canals in order to fund urgent repairs to the Monmouthshire and Brecon Canal The report focuses on BW s regeneration and restoration work but also looks at how Defra and BW are working together and the Committee is encouraged by an improvement in the relationship and communication between the two bodies Restoration of canals produces little if any direct benefit to BW and BW has often carried all the financial risk in such projects Canal restoration schemes can be of great value to the areas where the canals are restored producing knock on benefits such as more jobs and visitor income The BW Board is charged primarily with maintaining the existing waterways network and cannot be expected to take on substantial risk from restoration projects especially in present economic conditions If the public sector wishes to obtain external benefits from canal restoration schemes the bodies responsible for obtaining those benefits should bear the risk Defra with British Waterways and other interested bodies should develop a mechanism to score and prioritise public investment in canal restoration according to the external benefits that would be created and should agree how the financial risks of such projects should be borne

Bulletin of the Atomic Scientists, 1968-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **“A” New English Dictionary on Historical Principles** William A. Craigie, James Augustus Henry Murray, 1919 Faith Makes Us Live Margarita Mooney, 2009-08-10 Margarita Mooney s path breaking book Faith Makes us Live is the first ever comparative study of how religious faith and practice affect immigrant adaptation and assimilation Her imaginative analysis of Haitian immigrants in Miami Montreal and Paris shows how religious faith serves to mediate culturally between immigrants and their host societies but also reveals that by itself faith is not enough to achieve successful integration Host societies must also be receptive to the religious institutions that serve immigrants if integration is to be achieved Her book is essential reading for students of both religion and immigration Douglas S Massey Princeton University Margarita Mooney s research on Haitian Catholic immigrants in three settings is elegant in design assiduous in execution and compelling in presentation Mooney s immigrants bring a deep piety with them across the ocean but the different contexts of reception they encounter in Miami Montreal and Paris significantly influence their differential adaptation to their new homes in the U S Canada and France Faith Makes Us Live is an essential contribution to the growing body of literature on religion and immigration R Stephen Warner University of Illinois at Chicago Faith Makes Us Live is one of those rare books that succeeds in making a valuable contribution on at least three fronts it extends the literature on religion and immigration by showing how religious organizations serve as mediating structures between immigrants and their host communities it demonstrates to scholars interested in faith based service organizations that the larger relationships between church and state must be considered carefully through a comparative framework and it provides students of religion with a compelling up close and personal account of how faith matters in the daily lives of Haitian immigrants Robert Wuthnow Princeton University What excites me most about Faith Makes Us Live is that it analyzes the role played by the Catholic Church in immigrant incorporation while taking into consideration the distinctive challenges met by Haitians in three societies that treat the poor immigrants and people of color quite differently The comparison between Miami Paris and Montreal is particularly felicitous given differences in the position and influence of the Church the characteristics of the Haitian populations and the public resources available to immigrants across these three contexts By showing how religion sustains resilience and empowerment for a particularly vulnerable group of individuals

Mooney demonstrates the crucial role of meaning making matters for immigrant incorporation Michele Lamont Harvard University This book teaches us an important lesson When immigrants are religious and so many are pragmatic cooperation between church and state can hasten their acculturation and improve their well being Faith Makes Us Live is essential reading for those who want to better understand the role of religion and religious institutions in immigrants lives Mark Chaves Duke University An exemplar of theory driven ethnographic research Professor Mooney provides an ambitious comparative study at once rich in detail and grand in scope By systematically comparing three countries on two continents this book uncovers crucial patterns of relationships among church state and civil society and how they affect immigrants on the ground This is what ethnography should be rooted in the lived experience of everyday life and yet motivated by the need to understand human social processes in general Andy Perrin University of North Carolina Thoroughly sociological in design and analysis this study opens new vistas for the field of religion and immigration Leaving behind celebratory or critical accounts of the role of religious beliefs in the adaptation of immigrant minorities Mooney makes clear that processes and outcomes depend on the interaction between religious institutions and the broader socio political context An original contribution made even more valuable by its focus on one of the most downtrodden groups in the migrant world Alejandro Portes Princeton University

The Canadian Encyclopedia James H. Marsh, 1999 This edition of The Canadian Encyclopedia is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in

a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry *A mari usque ad mare* from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada
