Slow Food Nation:

Slow Food Nation Carlo Petrini, 2013-10-08 The leader of the Slow Food movement offers a hopeful manifesto for equitable sustainable and delicious food with systematic solutions for addressing the national food crisis Builds a case against fast food and offers ways to bring back the balance between nature and our table Bon Appetit By now most of us are aware of the threats looming in the food world The best selling Fast Food Nation and other recent books have alerted us to such dangers as genetically modified organisms food borne diseases and industrial farming Now it is time for answers and Slow Food Nation steps up to the challenge Here the charismatic leader of the Slow Food movement Carlo Petrini outlines many different routes by which we may take back control of our food Discover the 3 central principles of the Slow Food plan Food must be sustainably produced in ways that are sensitive to the environment Those who produce the food must be fairly treated Food must be healthful and delicious In his travels around the world as ambassador for Slow Food Petrini has witnessed firsthand the many ways that native peoples are feeding themselves without making use of the harmful methods of the industrial complex He relates the wisdom to be gleaned from local cultures in such varied places as Mongolia Chiapas Sri Lanka and Puglia Amidst our crisis it is critical that Americans look for insight from other cultures around the world and begin to build a new and better way of eating in our communities here

Slow Food Nation's Come to the Table Katrina Heron, 2008-09-16 Where do great meals begin Come to the Table brings you straight to the source of wonderful flavors beauty abundance and pride of place the small farms of California and the people who tend them season after season Alice Waters the celebrated chef and food activist introduces a remarkable group of resilient fresh food artisans who are committed to keeping our food supply delicious diverse and safe for humans and the planet Meet the folks down on the farm and learn firsthand about the back to the future small farm economy that's gaining strength across America Discover new tastes and memorable traditions Explore local flavors wit and wisdom along with the universal values of a food system that is good clean and fair Recreate a range of sumptuous yet simple meals with the farmers own family recipes including breakfast crostata and fresh fruit jams stuffed artichokes and black eyed peas chile relleno casseroles pulled pork and cheesecake Sustainable food is real food Come to the table and help yourself

Food & Freedom Carlo Petrini, 2015-09-01 Inspiring the global fight to revolutionize the way food is grown distributed and eaten In the almost thirty years since Carlo Petrini began the Slow Food organization he has been constantly engaged in the fight for food justice Beginning first in his native Italy and then expanding all over the world the movement has created a powerful force for change The essential argument of this book is that food is an avenue towards freedom This uplifting and humanistic message is straightforward if people can feed themselves they can be free In other words if people can regain control over access to their food how it is produced by whom and how it is distributed then that can lead to a greater empowerment in all channels of life Whether in the Amazon jungle talking with tribal elders or on rice paddies in rural Indonesia the author engages the reader through the excitement

of his journeys and the passion of his mission Here Petrini reports upon some of the success stories that he has observed firsthand From Chiapas to Puglia Morocco to North Carolina he has witnessed the many ways different peoples have dealt with food problems This book allows us to learn from these case studies and lays out models for the future Slow Food Nation's Come to the Table Katrina Heron,Alice Waters,2008-09-16 **SFN '08** Paige Lansing,2008 Slow Food Nation Carlo Petrini,2007 Every day newspapers report on food crises from spiralling diabetes to E coli scares Legislation is being initiated on state and federal levels to address these issues This book will provide the essential entry from this side of the debate for the season and a blueprint to follow for years to come **The Slow Food Story** Geoff Andrews,2008-07-20 The Slow Food movement was set up in Italy as a response to the dominance of fast food chains supermarkets and large scale agribusiness It seeks to defend what it calls the universal right to pleasure and promotes an alternative approach to food production and consumption based on the promotion of good clean and fair local products This is the first in depth study of the fascinating politics of Slow Food which in twenty years has grown into an international organisation with more than 80 000 members in over 100 countries With its roots in the 1960s and 1970s counter culture Slow Food s distinctive politics lie in the unity between gastronomic pleasure and environmental responsibility The movement crosses the left right divide to embrace both the conservative desire to preserve traditional rural communities and an alternative virtuous idea of globalisation Geoff Andrews shows that the alternative future embodied in Slow Food extends to all aspects of modern life The Slow Food Story presents an extensive new critique of fast moving work obsessed contemporary capitalist culture

We Are What We Eat Alice Waters,2021-06-01 From chef and food activist Alice Waters an impassioned plea for a radical reconsideration of the way each and every one of us cooks and eats In *We Are What We Eat* Alice Waters urges us to take up the mantle of slow food culture the philosophy at the core of her life s work When Waters first opened Chez Panisse in 1971 she did so with the intention of feeding people good food during a time of political turmoil Customers responded to the locally sourced organic ingredients to the dishes made by hand and to the welcoming hospitality that infused the small space human qualities that were disappearing from a country increasingly seduced by takeout frozen dinners and prepackaged ingredients Waters came to see that the phenomenon of fast food culture which prioritized cheapness availability and speed was not only ruining our health but also dehumanizing the ways we live and relate to one another Over years of working with regional farmers Waters and her partners learned how geography and seasonal fluctuations affect the ingredients on the menu as well as about the dangers of pesticides the plight of fieldworkers and the social economic and environmental threats posed by industrial farming and food distribution So many of the serious problems we face in the world today from illness to social unrest to economic disparity and environmental degradation are all at their core connected to food Fortunately there is an antidote Waters argues that by eating in a slow food way each of us like the community around her restaurant can be empowered to prioritize and nurture a different kind of culture one that champions values such as biodiversity seasonality

stewardship and pleasure in work This is a declaration of action against fast food values and a working theory about what we can do to change the course As Waters makes clear every decision we make about what we put in our mouths affects not only our bodies but also the world at large our families our communities and our environment We have the power to choose what we eat and we have the potential for individual and global transformation simply by shifting our relationship to food All it takes is a taste Fast Food Nation Eric Schlosser,2012 An exploration of the fast food industry in the United States from its roots to its long term consequences **The Cultural Roots of Slow Food** Ilaria Tabusso Marcyan,2023-10-24 The Cultural Roots of Slow Food Peasants Partisans and the Landscape of Italian Resistance focuses on the work of a variety of intellectual activists related food justice literature and documentary films and argues that contemporary forms of environmental activism as they are rooted in local food and sustainable farming are built on Italian peasant culture and its contributions to the Resistance movement during World War II This book looks to the hinterlands to demonstrate that peasants by sharing their knowledge of the land and traditional practices produce their own organic intellectuals Some examples examined are Alcide Cervi Nuto Revelli and Ermanno Olmi Ilaria Tabusso Marcyan argues that their work personal experiences and visions of resistance foreground the cultural roots of the Slow Food international grassroots movement She posits that today Slow Food and the food communities of Terra Madre in Italy and around the world represent one of the many examples of these new organic intellectuals committed to rebuild a more harmonious and sustainable relationship with the land The Food Industry in Eric Schlosser's Fast Food Nation David M. Haugen,Susan Musser,2012-11-12 This informative volume explores Eric Schlosser s Fast Food Nation through the lens of the food industry Coverage includes an examination of Schlosser s life as an investigative journalist Schlosser s view of the food industry as demonstrated in his book how investigative journalism can be viewed as literature how Fast Food Nation has changed people s perspectives and actions criticisms of Fast Food Nation and its message and contemporary perspectives on the food industry with commentary on topics such as food regulations and movements Food, National Identity and Nationalism Atsuko Ichijo,Ronald Ranta,2016-01-26 Exploring a much neglected area the relationship between food and nationalism this book examines a number of case studies at various levels of political analysis to show how useful the food and nationalism axis can be in the study of politics *Slow Food* Carlo Petrini,2003 A volume for all those passionate about food and its impact on our culture Drawn from five years of *Slow* the quarterly journal of Slow Food International which first appeared in 1996 when it was published in three editions Italian English and German The 11th review in 1998 was also published in Spanish and French and thus *Slow* now speaks in five languages *Brands with a Conscience* Nicholas Ind,Sandra Horlings,2016-03-03 The definitive expert guide to ethical brand practice from the prestigious Medinge Group *Brands with a Conscience* dissects the philosophies underpinning sustainable brands to arrive at a set of eight clear guiding attributes which can be used as the foundation of a strategy for responsible growth These attributes span the public persona of an organization the actions to

take when things go wrong the effort invested in developing relationships the promotion of core values and balancing measures of success across economic human social and environmental factors They are then used as the criteria to assess twelve carefully selected case studies which include Dilmah Tea H M Dr Hauschka Merci and the John Lewis Partnership amongst other leading international brands Because the potential to have bad practice unmasked or to have successes amplified online is greater than ever it pays to adopt a strategy that builds customer loyalty and trust Brands with a Conscience inspires via examples of brands which not only exhibit a genuine desire to operate ethically but also have seen impressive success in terms of engagement with consumers reputation and return on investment The book includes a range of practical tools to bring together the main concepts in an easy to adopt framework for building a brand strategy based upon real world experience If you are a brand manager or marketing professional seeking a conscientious approach to consumer engagement then Brands with a Conscience will support you every step of the way [Sustainable Wine Bar](#) ,2008

Green Food Dustin Mulvaney,2010-05-04 This third volume in the SAGE Series on Green Society lays out the contours of the field of agri food studies It draws on scholars working in the fields of political ecology rural sociology geography and environmental studies to paint a picture of the past present and future of agriculture and food It provides readers with a basic understanding of the institutions practices and concepts to identify what is and is not a green food Because food is so intimately connected to our daily lives the food system offers perhaps the most promise to make change in a sustainable direction This volume addresses what a sustainable and green food system might look like what policies would help realize it and what kinds of tradeoffs we face in deciding which paths to choose Green Food An A to Z Guide provides people interested in food and agricultural systems the basic analytical and conceptual ideas that explain why our food system looks the way it does and what can be done to change it for the better Roughly 150 entries discuss how to address issues related to a green food system and vivid photos searchable hyperlinks numerous cross references an extensive resource guide and a clear accessible writing style make the Green Society volumes ideal for classroom use [Slow Culture and the American Dream](#) Mary Caputi,2022-06-01 Is the USA hospitable to the slow movement The land of fast food get rich quick schemes and 24 7 news feeds In Slow Culture and the American Dream A Slow and Curvy Philosophy for the Twenty First Century Mary Caputi argues that the slow movement has much to teach the United States at this moment in time Although slow philosophy is in many ways opposite to the prevalent American Dream the current cultural setting demands that we heed its teachings The climate crisis should make us rethink our fast paced ever accelerating lifestyle so that we can lighten our carbon footprint and decelerate if not reverse the damage done to the planet Equally important however is the movement s mandate that we slow down and savor life focusing on quality beauty and calm rather than quantity and speed Slow Food Cittaslow slow cities slow fashion slow travel and slow parenting are examples of a philosophy that seeks to shift our focus away from progress as currently understood and revalue quality of life issues Drawing deeply on her involvement with Slow Food and

Cittaslow the author advocates mainstreaming the philosophy of slow and thus reprioritizing the American Dream in ways that sustain the planet and teach Americans to develop a more refined aesthetic principle **Global Jewish Foodways**

Hasia R. Diner, Simone Cinotto, 2018-06 The history of the Jewish people has been a history of migration Although Jews invariably brought with them their traditional ideas about food during these migrations just as invariably they engaged with the foods they encountered in their new environments Their culinary habits changed as a result of both these migrations and the new political and social realities they encountered The stories in this volume examine the sometimes bewildering kaleidoscope of food experiences generated by new social contacts trade political revolutions wars and migrations both voluntary and compelled This panoramic history of Jewish food highlights its breadth and depth on a global scale from Renaissance Italy to the post World War II era in Israel Argentina and the United States and critically examines the impact of food on Jewish lives and on the complex set of laws practices and procedures that constitutes the Jewish dietary system and regulates what can be eaten when how and with whom Global Jewish Foodways offers a fresh perspective on how historical changes through migration settlement and accommodation transformed Jewish food and customs **In the Meantime**

Sarah Sharma, 2014-02-07 Based on ethnographic research with taxi drivers frequent flyer business travelers devotees of the slow food and slow living movements and others Sarah Sharma argues that people's relations to labor shape their experiences of time **Irresistible Empire** Victoria De Grazia, 2009-07 The most significant conquest of the twentieth century may well have been the triumph of American consumer society over Europe's bourgeois civilization It is this little understood but world shaking campaign that unfolds in de Grazia's account of how the American standard of living defeated the European way of life and achieved the global cultural hegemony that is both its great strength and its key weakness today Tracing the peculiar alliance that arrayed New World salesmanship statecraft and standardized goods against the Old World's values of status craft and good taste de Grazia describes how all alternative strategies fell before America's consumer oriented capitalism first the bourgeois lifestyle then the Third Reich's command consumption and finally the grand experiment of Soviet style socialist planning From publisher description
