On the Origin of Spin Brendan Bruce, 2013-06-29 This book was written to try and answer the question where and when did political spin originate It deals with the techniques of news management developed and used in those advanced democracies who have laws to protect a free press such as the United States of America and to a lesser extent its first cousin several times removed the United Kingdom of Great Britain governmental toleration of free speech progressive legislation to widen the franchise vigorous growth in political parties pluralism and its consequence the peaceful coexistence of different interests convictions and lifestyles a healthy adherence to Burkean little platoons of volunteers and most of all sophisticated developments in mass media technologies and consumer marketing techniques all of which means that the Anglo Saxon cousins are and have always been in the vanguard of news management Government and media have been at war from the very beginning At the bottom of this is a struggle for allegiance The media want the allegiance of their readers and viewers because this brings them the profits they need to remain in business As Patrick Le Lay then CEO of the main French private channel TF1 put it There are many ways to speak about TV but in a business perspective let's be realistic TF1's job is to help Coca Cola sell its product What we sell to Coca Cola is available human brain time Government on the other hand wants the allegiance of the voter to acquire or retain power The famous Victorian editor of The Times Thomas Barnes once said that the newspaper is not an organ through which Government can influence people but through which people can influence the Government Politicians would reverse the dictum And therein lies the *causa belli* The politician's strategy for winning this war was stated most succinctly by that arch media manipulator David Lloyd George what you can't square you squash and what you can't squash you square The media for their part are determined to be neither squashed nor squared From 1800 in the US and 1832 in Britain when Germany and Italy were just a glint in the eye of some petty princes and France was recovering from yet another pointless revolution leaving behind yet another example of Kafka's bureaucratic slime competitive party based elections produced extraordinary outbursts of creativity Politicians learned that the art of politics is about making and then winning arguments As each successive cutting edge novelty arrived the spin doctors quickly adapted and improved their techniques by adroitly exploiting the new medium's benefits For two centuries and even

before the Anglo Saxons have led the world in spin this is the history of that journey *Buying Time for Heritage* J. Myrick Howard, 2023-10-03 What does it take to save endangered historic properties This practical guide builds on decades of historic preservation experience to provide readers with legal financial political and technical tools and strategies to be more effective preservationists Myrick Howard makes clear that large sums of money are not necessarily needed to save endangered historic properties but knowledge and passion are essential This book shows how preservation minded neighbors and organizations can succeed with only modest resources and rather than clash with developers can become developers themselves for community benefit Howard draws on case studies from forty five years of successful work leading Preservation North Carolina with lessons that are applicable coast to coast This richly illustrated fully revised and redesigned second edition includes detailed projects to renovate vacant houses in working class neighborhoods reflections on addressing racial equity through preservation an expanded section on using preservation easements and summaries of revolving fund programs around the country *Buying Time for Heritage* is an indispensable resource for those looking to save the special places of our collective past **Start a Revolution** Ben Bizzle, Maria Flora, 2014-12-11 At the Craighead County Jonesboro Public Library in Arkansas Bizzle and his colleagues defied common practices by using creative risk taking in marketing and outreach to transform their library into a dynamic institution that continues to grow and thrive
