Smart Strategies for Buying a Car Daniel E. Harmon, 2014-07-15 Most young drivers have one goal in mind when they think of getting their own vehicle freedom Car ownership is one of life's joys as well as one of its major financial investments This candid volume offers readers a step by step approach for how to choose the best car to suit their needs and how best to plan research and budget for the purchase In today's economically challenging times students require an opportunity to learn about money management as well as car facts the choices available and the importance of safety Content supports state and national standards on financial literacy

An Integrated Formal Task Specification Method for Smart Environments Maik Wurdel, 2011 This thesis is concerned with the development of interactive systems for smart environments One of the characteristic of smart environments is the need to support different interaction paradigms at runtime On the one hand interaction is performed explicitly the user performs an action in order to interact with the system e.g. pressing a button to adjust the light On the other hand actions of the user are interpreted by the smart environment even though they have not been performed primarily to interact with the system implicit interactions e.g. walking to the speaker's desk to give a talk A smart environment tries to infer those interactions to assist the user in her work e.g. display slides at the projection canvas Both interaction paradigms originate from different research fields and are currently treated independently although implicit and explicit interaction mutually influence each other and occur interleaved The thesis introduces a task modeling language in order to cope with the given requirements of smart environments which can be used to perform interaction development for smart environments in a model based fashion for both interaction paradigms
