Flypaper Elizabeth (Boyd) Martins, 2014-09-23 This book is a compilation of poems I have written over the span of 42 years It is mostly about my family and friends The pleasure and pains from losses and gains **The Hoosier Magazine**, 1929 **Awards Honors & Prizes, Volume 2** Thomson Gale, 2007-04 This international directory describes awards given for achievements in virtually every field of endeavor Awards are listed alphabetically by the name of the administering organization followed by alphabetical listings and descriptions of each of the awards it offers Each volume contains organization award and subject indexes for quick reference This reference includes e mail addresses and URLs Most Popular Web Sites Lycos Development Group, 1997-02 *Right-to-Work Laws and the Crumbling of American Public Health* Deborah Wallace, Rodrick Wallace, 2018-02-16 This book discusses the socioeconomic effects of Right to Work RTW laws on state populations RTW laws forbid requiring union membership even at union represented worksites The core of the 22 long term RTW states was the Confederacy cultural descendants of rigidly hierarchical agrarian feudal England RTW laws buttress hierarchy and power imbalance which unions minimize at the worksite and by encouraging higher educational attainment social mobility and individual empowerment through group validation Contrary to claims of RTW proponents RTW and non RTW states do not differ significantly in unemployment rates RTW states have higher poverty rates lower median household incomes and lower educational attainment on average and median than non RTW states RTW states on average and median have lower life expectancy higher obesity prevalence and higher rates of all cause mortality early mortality from chronic conditions child mortality and risk behaviors than non RTW states The higher mortality rates result in startlingly higher annual numbers of years of life lost before age 75 Stroke mortality at age 55 64 in RTW states results in nearly 10 000 years annually lost in excess of what it would be if the mortality rate were that of non RTW states A review of respected publications describes the physiological mechanisms and epidemiology of accelerated aging due to socioeconomic stress Unions challenge hierarchy directly at work sites and indirectly through encouraging college education social mobility and community and political engagement How startling that feudal hierarchy lives in 21st century America shaping vast differences between states in macro and micro economics educational attainment innovation life expectancy obesity prevalence chronic disease mortality infant and child mortality risk behaviors and other public health markers Readers will gain insight about the coming clash between feudal individualism and adaptive collectivism and in the last chapter on ways to win the clash by missionary work for collectivism **Bowker Annual Library and Book Trade Almanac** Information Today Inc, 2002 Legends of the Crane Pamela J.
