year **Educational Technology Integration Foundations** Mark Page-Botelho, 2012-05-01 Educational Technology is a

field that can be complex with many facets that need to be taken into consideration to successfully integrate into classrooms

This book is a accumulation of many years work in the field and covers every aspect of integration The book is intended as a

resource to skip through to help guide those looking for ideas especially for those new to technology For those who have a

solid foundation can find information about often overlooked topics or topics not often thought about that can improve a pre

existing program Picturebooks Evelyn Arizpe, Maureen Farrell, Julie McAdam, 2014-10-14 The picturebook is now

recognized as a sophisticated art form that has provided a space for some of the most exciting innovations in the field of

children s literature This book brings together the work of expert scholars from the UK the USA and Europe to present

original theoretical perspectives and new research on picturebooks and their readers The authors draw on a variety of

disciplines such as art and cultural history semiotics philosophy cultural geography visual literacy education and literary

theory in order to revisit the question of what a picturebook is and how the best authors and illustrators meet and exceed

artistic narrative and cultural expectations The book looks at the socio historical conditions of different times and countries

in which a range of picturebooks have been created pointing out variations but also highlighting commonalities It also

discusses what the stretching of borders may mean for new generations of readers and what contemporary children

themselves have to say about picturebooks This book was originally published as a special issue of the New Review of Children s Literature and Librarianship
