In Search of Criminal Responsibility Nicola Lacey, 2016 What makes someone responsible for a crime and therefore liable to punishment under the criminal law Modern lawyers will quickly and easily point to the criminal law's requirement of concurrent actus reus and mens rea doctrines of the criminal law which ensure that someone will only be found criminally responsible if they have committed criminal conduct while possessing capacities of understanding awareness and self control at the time of offense Any notion of criminal responsibility based on the character of the offender meaning an implication of criminality based on reputation or the assumed disposition of the person would seem to today's criminal lawyer a relic of the

18th Century In this volume Nicola Lacey demonstrates that the practice of character based patterns of attribution was not laid to rest in 18th Century criminal law but is alive and well in contemporary English criminal responsibility attribution Building upon the analysis of criminal responsibility in her previous book *Women Crime and Character* Lacey investigates the changing nature of criminal responsibility in English law from the mid 18th Century to the early 21st Century Through a combined philosophical historical and socio legal approach this volume evidences how the theory behind criminal responsibility has shifted over time The character and outcome responsibility which dominated criminal law in the 18th Century diminished in ideological importance in the following two centuries when the idea of responsibility as founded in capacity was gradually established as the core of criminal law Lacey traces the historical trajectory of responsibility into the 21st Century arguing that ideas of character responsibility and the discourse of responsibility as founded in risk are enjoying a renaissance in the modern criminal law These ideas of criminal responsibility are explored through an examination of the institutions through which they are produced interpreted and executed the interests which have shaped both doctrines and institutions and the substantive social functions which criminal law and punishment have been expected to perform at different points in history

Corporate Manslaughter and Corporate Homicide Shivam Goel, 2015-06-26 A corporation is an artificial legal person existing only in the contemplation of law having perpetual succession and common seal Can a corporation commit crime for its inability to form mens rea If yes then can it be accused of crimes as grave as homicide Even post the Bhopal Gas Tragedy and the Uphaar Cinema Tragedy absence of legislation such as the Corporate Manslaughter and Corporate Homicide Act 2007 UK is no less a pity Absolute liability theory coupled with deep pocket theory though is an improvisation over the strict liability theory but has failed to ensure corporate criminal deterrence This book is an attempt to ponder over issues relating to corporate criminal behaviour in particular corporate homicide and corporate manslaughter **Simplification of criminal law** Great Britain: Law Commission, 2011-09-28 In this report the Law Commission says the legal definition of kidnap needs to be rewritten to allow prosecutors to deal properly with each offender It says the existing definition was confusing and ambiguous Kidnapping is a common law offence an historic crime developed in the courts rather than being defined exactly by an Act of Parliament It covers a huge range of possible offences from minor domestic incidents to major conspiracies and can carry a maximum life sentence But the Law Commission says kidnap is more complex than the popular view that the offence occurs when someone is taken against their will Prosecutors must also show that there was either fraud or force involved otherwise they must rely on other offences such as abduction or false imprisonment This means there is a gap in the law where either a child or a vulnerable adult such as someone with learning disabilities was enticed away Although neither could give consent to being taken away a perpetrator would escape a charge of kidnap if the police and prosecutors could not show they used force or fraud In the worst case scenario this could mean that someone who kidnapped a child would face a maximum sentence of just seven years Kidnap could be made more workable by simply showing that the victim had not given their consent to being taken away The Commission also says reforms could also allow minor cases to be dealt with by magistrates courts saving both time and money **Simester and Sullivan's Criminal Law** A P Simester, J R Spencer, G R Sullivan, G J Virgo, 2014-07-18 This is the fifth edition of the leading textbook on criminal law by Professors Simester Spencer Sullivan and Virgo Simester and Sullivan is an outstanding account of modern English criminal law

combining detailed exposition and analysis of the law with a careful exploration of its theoretical underpinnings. Primarily it is written for undergraduate students of criminal law and it has become the set text in many leading universities. Additionally the book is used as an important point of reference in academic writing and postgraduate research in England and abroad. Simister and Sullivan has been cited by appellate courts throughout the world. There have been a large number of important appellate decisions since the last edition of this work. This new case law among other things provides helpful guidance for the interpretation of offences under the Serious Crime Act 2007 and of the defence of loss of control provided by the Coroners and Justice Act 2009. There have been significant developments in the laws relating to rape, self defence and defence of property and duress. Special mention should be made of the continuing stream of appellate cases regarding the nature and scope of secondary liability in the crimes of others.
